

BENITO MUSSOLINI
JUNKS DEMOCRACY

On the ruins of democracy Mussolini has built his golden state. He finds no fault with democracy where it can be applied. It won't work in Italy that's all. Being a pragmatist he regards it as he would a steam engine that won't make steam or a telephone that won't transmit sound.

In place of a government by the people he has set up a board of censors corresponding to the general being director of an army. Mussolini's board of directors represents the organized syndical or occupational associations of the Italian. These associations are the government of Mussolini's golden state. Thus, the capital, the industries, the professions will be in the state.

Popular government is dead in Italy. No man, whether engineer, professor, ditch digger has any choice as to how he is governed, but he may enjoy the right of knowing that he is being treated as an individual in line up with the destiny of the nation.

The Fascist doctrine denies the claims of popular sovereignty and in its place proclaims the claims of the sovereignty of the world's work.

JOKES FROM OVER SEAS
"I want," said the house-hunter, "a house in an isolated position—at least five miles from any other house."

"I see," said the agent, with an understanding smile. "You want to practice the simple life."

"No," answered the house-hunter, grimly; "I want to practice the comet."—(Evening News, Nottingham.)

Husband of Lady Doctor (cont.): What is this mistress he speaks of?

Countess: Mistress had not shown themselves clearly enough for the diamond to be quite certain, sir. (Urgenda Gazette, Zurich.)

Client: But I warn you I can't pay for this suit for three months."

"Oh, that does not matter to me least."

"When will it be ready?"

"In about three months," said the Countess. (Derbisher, Berlin.)

Advertiser: You will be here next year?"

"Yes, he said: 'If you across I will never kiss you again.' (Drapier, Stockholm.)

"Name of wild animals seen in Africa."

"Two lions and four tigers." (Drapier, Paris.)

WRECK QUIZ RESUMED

Ship Survivors Will Testify

Officers of San Juan's Crew Expected to Defend Name of Dead Captain

Los Angeles Woman Added to Long List of Those Who Lost Their Lives

BY FLOYD J. HEALEY

"Times" Staff Correspondent
SAN FRANCISCO, Sept. 2.—Efforts to determine responsibility for the tragic crash of the steamer San Juan and the tanker S. C. T. Dodd will be resumed here at 9 a.m. tomorrow by Federal Inspectors Turner and Dolan, under the supervision of John K. Bulger, supervising inspector of hulls and boilers for the United States Bureau of Navigation.

With three surviving members of the San Juan's crew scheduled to be called it is anticipated that a witness different from those who advanced theories regarding the probable cause of the collision which exacted a toll of approximately seventy-seven lives.

To date testimony by Capt. Hugo O. Bleumchen and other officers of the Dodd, who were present on board for the wreck off Pigeon Point on the navigation of Capt. A. F. Aylward, who went down to his death on the bridge of the San Juan.

Capt. Bleumchen, his second mate, Omeron R. Price, and his third mate, O. V. Schildknecht, and the members of the San Juan crew will follow them, according to present plans. When the latter take

SHIP PASSENGERS MADE VICTIMS OF RUM RACKET

NEW YORK, Sept. 2. (Exclusive) Wealthy New Yorkers sailing for Europe were warned today by Prohibition Administrator Campbell of the rum racket committed by the men of bootlegging the "good stuff" straight off the boat.

According to Maj. Campbell the new racketeers look over the sailing lists and pick out the names of men from Park and Fifth avenues and tell them they are victims.

After the ship has sailed a telegram, signed with the name of the

selected victim, is delivered at his office, notifying his secretary that he arranged with a bootlegger at the dock to deliver certain packages at his office and collect from his secretary.

Maj. Campbell said the racket was uncovered by officials of the Coast Guard as a result of complaints from passengers that they had been made the purchasers of large quantities of very bad liquor at the very highest prices, without their authorization. No arrests have been made so far. He said.

He said visiting here for a week and had booked passage for her return to Los Angeles on what proved to be the San Juan's last voyage.

Mrs. Ely said she knows virtually nothing of Mrs. Fraser's relatives

or the San Juan, expect a different story of the crash from its own employees has been provided in Federal Court against the Standard Oil Company.

The libel sued damage of \$1,000,000.

Members of the San Juan's crew

who have been listed for appear-

ance at the hearing tomorrow are

C. J. Tullis, first mate; August Ol-

sen, second mate; R. Papenfus,

Spanish detective.

It is said none of the San Juan

passengers will be called, at least

tomorrow, but any of the survivors

who believe he or she has informa-

tion of the hearing or of possible cause

of the collision which exacted a toll

of approximately seventy-seven

lives.

To date testimony by Capt. Hugo O. Bleumchen and other officers of the Dodd, who were present on board for the wreck off Pigeon Point on the navigation of Capt. A. F. Aylward, who went down to his death on the bridge of the San Juan.

Capt. Bleumchen, his second mate, Omeron R. Price, and his third mate, O. V. Schildknecht, and the members of the San Juan crew will follow them, according to present plans. When the latter take

AS TO ACTIONS OF CREW

Inspector Turner said today he

has discovered nothing to support a contention that crew members of the San Juan acted with negligence.

"In an instant like this," he said,

"when a vessel is struck and sinks

in three minutes at midnight, nothing

could be done by the crew in the way

of lowering lifeboats or passing out

life preservers.

"The passengers were lost because

most of them were below in their berths.

Seamen saved themselves

because they knew how to take care of themselves. The captain and

lookouts were lost, although they were on deck at the time and might

have saved themselves.

Whether either vessel was pro-

ceeding at a dangerous rate of

speed in fog is yet to be determined.

"I do not believe the age of the

San Juan had much to do with the

founding. The San Juan had

complied with all the requirements

of the Bureau of Navigation, as far

as I know.

Properly fitting the Eyes is the First Essential. Good Glasses are not Large.

They are a Necessity and property to the Eyes for your brain work.

FEAR FELT FOR MISSING FLYER

(Continued from First Page)
of the opposition Turner was up against.

Gladys O'Donnell, Long Beach, Cal., derby girl, even things up a bit with Mrs. Louis M. Thaden, formerly of Oakland, Cal., and winner of the women's Santa Monica to Cleveland air derby, when she finished first to beat Mrs. Thaden by one minute in a race from here to Pittsburgh.

The \$600 prize money won by the two Bach planes will be presented to Mrs. Jack Reid of Los Angeles, wife of the Downey, (Cal.) solo endurance pilot who lost his life in a crash here early Saturday morning after he had broken the solo mark set by Lincoln R. Pritchett.

Turner announced here that he will not protest Reid's record if it is recognized by the National Aeromotive Association, but it is doubtful if the association will place Reid's mark on the books.

Reid's mark on the books. He did not protest.

Reid was dubious about his record.

Turner, however, said his record was imaginary.

TONIGHT: Henry Brown, Cleveland mail flyer, in the Los Angeles-Cleveland non-stop race, will collect \$250 for his flight, it was learned here tonight. Brown wins \$600.

The navy contingent of eighteen pursuit ships and three amphibians from the aircraft carrier Saratoga at San Pedro, Cal., will take off for the National Aeromotive Association race.

They will traverse the transcontinental mail route and are scheduled to arrive at San Pedro next Saturday.

The squadron from the Saratoga has furnished a major proportion of the thrills it was leaking oil, and its second was abandoned when ignition wires on the plane caught fire just before a take-off.

Reid is held in jail here for the Santa Monica (Cal.) authorities charged with giving a worthless draft in purchasing a sport model.

Sunday night Reid developed

symptoms and moaned loudly. The

reider was dubious but had him removed to the hospital.

Tonight Reid completed his cell

in the County Jail. Physicians said

his illness was imaginary.

designed to empty the United States

Army disciplinary barracks at Fort

Leavenworth, preliminary to turning

the prison over to the Department

of Justice, was made today. A con-

tract, signed by Capt. F. Black, left today for Alcatraz, Cal., on San Francisco Bay. Thirty

guards accompanied the party,

which will make the trip in a spe-

cial train.

ARMY PRISONERS

Off to Alcatraz

HOOVER STAFF NEARLY FILLED

All Important Positions of Administration Occupied

Successor Must be Chosen for Mrs. Willebrandt

Some Judicial Appointments Also Must be Made

WASHINGTON, Sept. 2. (AP)—Except for the selection of an assistant Attorney-General to succeed Mrs. Mabel Walker Willebrandt as chief prohibition enforcement officer, President Hoover has completed his staff for the administration of which he became the head six months ago.

He still has a number of judicial appointments as well as some others to make, however, the judicial including judges for the First and Seventh circuits and for the eastern districts of New York and the districts of Kansas and New Jersey.

UTOPIA IN SOUTH SEAS, SAYS S.C. PROFESSOR

SAN FRANCISCO, Sept. 2. (Exclusive)—Bali, an island in the Dutch East Indies, is described by John G. Hill, professor of theology and archeology at the University of Southern California, as the "world's Utopia." He returned from a picture-taking expedition to the South Seas today on the liner Taiyo Maru. "Bali," said the professor, "is the most fascinating island in the world. There, time turns back 4,000 years;

In addition two judges must be selected for the Court of Claims.

OTHERS TO BE NAMED United States attorneys still to be appointed include those for the southern district of Florida, the northern district of Mississippi and the northern district of Pennsylvania. These will complete the reorganization of the United States attorney's force of the country as a result of a survey determined on by the Chief Executive and Atty.-Gen. Mitchell early in the administration.

With these selections there will be a sizable batch of appointments to be made.

SMOOT OFFERS TARIFF REPORT

Formal Action Yet Must be Taken by Committee

Using Domestic Value for Duty Basis Urged

Numerous Changes Made in House Bill Explained

WASHINGTON, Sept. 2. (AP)—Removal of all international difficulties in the administration of the American tariff law would be attained, in the opinion of Republican members of the Senate Finance Committee, by enactment of the proposed substitution of domestic for foreign value as a basis for levying of the tariff duties.

BOARD ACTION DUE Nominations of the eight members of the Federal Farm Board unquestionably will be transmitted to the Senate soon after the resumption of the special session this week as members of the board must serve without compensation until their nominations have been confirmed.

Just before the special session ends the President is also expected to submit the name of Senator Walter E. Edge of New Jersey to be Ambassador to France.

There naturally is speculation as to whether Mrs. Willebrandt's successor will be nominated before December. The President practically has decided to appoint Hugh M. Alderson, State Attorney of Connecticut, to the post. Alderson has the independent support of the dry leaders, but there have been reports of some opposition in the Senate and this is assumed to have delayed announcement of the appointment.

LITTLE DIFFICULTY

The nomination of Clarence M. Young of Iowa as assistant Secretary of Commerce for Aviation may be held over until the regular session as William F. MacCracken did not return October 1. It also is believed that some of the judicial nominations will be held up, especially those around which any controversy might develop.

Thus far the President has had little difficulty in having his nominees rejected out of a total of 1,049 submitted. Four of the nominations, all involving promotion of army officers, were withdrawn and 232 were confirmed with 117 still to be acted on. The nomination rejected was that of Redmond A. Bolton as postmaster at Jamestown, N. D.

VANDALS SPORT WITH DEAD

Ghouls of New York Beaches Despoil Crematory, Scatter Ashes and "Pet" in Pesthouse

(Copyright, 1929, by the New York News Syndicate.)

NEW YORK, Sept. 1. (Exclusive)—Swinburne Island, abandoned

Federal plague station, known and dreaded by superstitious immigrants as the Island of the Dead, has been despoiled by vandals from Staten Island beaches near by.

Drunken bathers of both sexes have broken into the mortuary.

Using the old crematory as the scene of their destruction they have smashed dozens of urns, scattering to the winds the ashes of foreigners who died at America's gateway.

In the shadows of ramshackle old

buildings where plague and pestilence once held sway, couples have engaged in petting parties, oblivious to the contagion that may lurk in these grim crystallized bones.

Standards on the island's edge, broad figures in bathing suits have been observed by passing boatmen, notably intent upon their shocking competition—to see which can throw the ash-filled urns farthest into the waters of the lower bay.

INFORMAL RECORD

Lucille Peters, 21 years of age, who died soon after she came to America on the steamship Eugene, was cremated March 30, 1929. Data attached to her urn had been written in red ink on the back of a form.

The only data obtained on the life history of another victim was written on the back of a grocery bill.

Fishermen said today that it has been the practice of jaded thrill-seekers to visit the place during the summer months.

HURRICANE WINDS HALT MEXICO FLYERS

MEXICO CITY, Sept. 2. (AP)—Winds of hurricane velocity disrupted airmail service in Mexico.

For the first time since its inauguration on Sept. 9 the Mexican Aviation Company's trimotored planes were unable to keep to their schedule when a powerful wind

was blowing. One plane was forced down near the place that the United States government property and that trespassing is forbidden under penalty of law.

Near the doorway of the mortuary building, which is wide open, the ground is strewn with bits of pottery—urns, fragments of bone, and the ashes spilled upon the ground.

Inside the mortuary concrete slabs have been torn from their places in the walls and lie smashed upon the floor. From one niche a coffin, rent, has end-wrenched loose, propped.

Slips of paper, the writing upon them illegible, are scattered on the floor. These bits of paper once bore the names of those whose ashes had been in the urns.

The United States government which paid for the cremation of the unfortunate did not bother to have printed form slips made for them. Their names were merely scribbled on old scraps of paper and inserted atop their ashes in the urn.

One victim's name was scrawled on the inside of the lid.

ARIZONA STATE TREASURY FLAT

Funds Depleted Until Tax Date in December

Treasurer Lays Blame to "Obsolete System"

Banks Earn 18 Per Cent for Cashing Warrants

PHOENIX, Sept. 2. (AP)—In a statement issued today, State Treasurer Charles H. Price charged that the State's "obsolete financial system," by which it is necessary to borrow money to operate, is responsible for the condition arising whereby State employees are forced to accept discounted pay warrants.

State house employees, who Saturday presented pay warrants

Phoenix presented pay warrants

which were worth only 90 per cent

of their face value.

Price declared that the State treasury is depleted until tax money begins to come in during the first part of December. He denounced financial institutions in the State that are not accepting the warrants and this steadily increases as the payment date approaches, until the final earnings are 18 per cent per annum, or an average of 18 per cent on all issued State warrants.

Local banks, through the Phoenix Clearing House, recently announced that State warrants would be discounted 1 per cent upon their submission to the banks.

It was declared at this time that it is possible to get high rates for call money on the warrants.

Local banks would be unwilling to charge the higher rate

for the cashing of the State's obligations.

Banish Lubrication Worries

LET some one else take your lubrication worries. All you have to do is sign up with McBryde, bring your car in to him every 500 miles and you will know that the oiling and greasing is being done thoroughly by conscientious experts. There are 70 different places in your car that need lubrication, some of these are nearly always overlooked by the ordinary "grease rack". It takes seven different kinds of lubricants to cover 70 places correctly.

When you sign up with McBryde, he guarantees to take all lubrication responsibilities from your shoulders, for 12,000 miles. All bolts screws and nuts will be tightened at proper intervals. The car will be thoroughly inspected, and any broken or worn parts will be reported to you in writing.

There are seven McBryde establishments in Los Angeles, drop into one of them today and get full details. You'll never know how smoothly your car can run until you try the McBryde service.

**Visitors say:**
"One of the finer cab services
of the world"

Visitors to our city, who have their home, their son, their London, their New York, frequently ride in the Yellow Cab Service of Los Angeles as "one of the best cab services of the world."

We of the Yellow Cab Company are proud of these expressions. They are testimony to the fact that we have realized, in part at

least, the high ideal that guides us in the building of Yellow Cab Service.

This service is city-wide, standardized, supervised and dependable. Every cab is a big, luxurious, six-cylinder-motorized, velvet-upholstered Yellow Cab.

The drivers are carefully selected, well trained and loyal to an ideal of service. The rates are low for a service that is so good.

**and Hands, Itched
by Cuticura.**

"It pimplies on my arms and hands, itchy keep from scratching, and my can my arms. I could hardly sleep and was bothered with them for

good peace but did not heal the inflammation and after using them steadily healed." (Signed) Mrs. M. M., April 24, 1929.

"Gold everywhere, Sample each line. Cuticura, M. M., 1929."

STORMS STRIKE FIERY FORESTS

Some of Blazes Fanned and Others Subdued

One Fighter-Killed as Huge Snag Hits Him

Many New Conflagrations Laid to Lightning

SPOKANE (Wash.) Sept. 2. (AP)—A wind-end storm, striking Pacific Northwest forest fires, fanned some into infernos, checked others, and started scores of new lightning fires.

Reports today described the death of one fire fighter and serious injury of another. Joe Eakin, 21 years of age, Chattanooga, Tenn., was killed, and Kenneth Curtis, 20, of Pocatello, Idaho, was injured when they were struck by a large snag which fell from a tree. They were water carriers.

THOUSAND FIGHT

In Central Idaho, 1000 men are fighting in the charred and glowing forests of the Selway, Nez Perce, Clear Water and Kooska, hampered by lack of food and shortage of fighters. Each man carries emergency rations, which the country is too rough to reach supplies regularly.

Scores of new fires were started by lightning bolts in this section, but further north the storm brought rain, subduing fires around Bonner's Ferry, Priest Lake and Sandpoint, and aiding fighters on the Coeur D'Alene forest.

SOME RAIN FALLS

In Eastern Washington high humidity in the charred areas aided in slowing down the 12,000-acre Burnt Creek fire and the Sand Point blaze. An alarming fire which raged around Old Metaline threatening logging camps and ranches, is reported in better condition today. Residents have fled from the flames, which are under control of the Diamond Match Company.

The Montana situation still is regarded as serious, if not critical, today, with no new reports.

In Central Idaho, rangers told of seeing animals gathering before the flames. Wild bear, deer, elk and mountain goats clustered around watering places, their native haunts turned into glowing cinders.

HOOVER FISHING REGION SWEEP BY FIRE

FREDERICK (Md.) Sept. 2. (AP)—An extensive fire in the Captain Mountain region yesterday burned over a portion of the land near here owned by Lawrence Richey, secretary to President Hoover for a fishing preserve but did not reach the fishing camp.

The fire on the Richey property was stopped but to the south it spread so rapidly over the city water shed that additional fire fighters were sought to augment the already large force. People at the Richey camp have been furnishing lumber for the men who have been fighting the flames since they started yesterday near Five Forks.

Liquor Suspect Slays Officer

GADSDEN (Ala.) Sept. 2. (AP)—Deputy Sheriff John W. O'Bryan, 43 years of age, was shot and killed shortly after he walked out of a church at Hale's schoolhouse twelve miles south of here last night.

Ed Hester, 35, whose home was raided in a liquor search yesterday, surrendered to police and was charged with first-degree murder.

Sheriff Graning said O'Bryan had seized a gallon of whisky in the home of Heaton in the raid.

Five Injured as Speed Boat Rams Launch

HOPE RENEWED FOR DR. JORDAN

Mos: Cheerful Day Since His

Illness Reported

CHICAGO, Sept. 2. (AP)—The second collision within a month involving a water taxi occurred in Lake Michigan off Navy Pier last night when a taxi operated by the Water Transit Company rammed the large gas launch Longfellow amidships. Five persons were injured.

There were thirty passengers on the launch and a dozen on the speed boat. A man and a woman, passengers on the speed boat, were pulled from the water by the Longfellow. Dr. David Starr Jordan, chancellor emeritus of Stanford University, appeared somewhat brighter today when it was reported

the 76-year-old educator had passed one of the most cheerful days since the beginning of his illness, July 3.

Although Dr. Jordan's condition varies but little from day to day, members of his family are encouraged by the improvement in his

mental outlook and the fact that he is able to rest more comfortably

now than for some time.

Police Branded as "Unfit" Get Old Jobs Again

PHILADELPHIA, Sept. 2. (AP)—

SEVENTY-two policemen branded as "unfit" by the special grand jury of

August 1928, suspended, and then

ordered back to duty by the Civil Service Commission, were back on the job today.

Director of the Bureau of the Department of Public Safety put them to work again under protest. "It is a

pity," he said, "that citizens must

depend upon such men for protection,

but under the law I have no

discretion and must return them to duty."

Although the men restored had been

questioned by the special grand jury

during the investigation of bootlegging and police bribery and most

of them had been under suspension

more than six months.

FIFTH DIVISION ENDS CONCLAVE

Veterans' Reunion at Chicago Closes With Banquet

CHICAGO, Sept. 2. (Exclusive)—

A banquet tonight concluded the sixth biennial reunion of the Fifth Division Society, which 300 war veterans from all parts of the country have attended during its two-day

conclave in Chicago.

David L. Shilligaw, State com-

mander of the American Legion, and

James P. Cosgrave, Lincoln, Neb.,

featuring the occasion.

Major Gen. Paul B. Malone, com-

manding the Tenth United States

Army Brigade, now stationed in

the Philippines Islands, was elected

president of the society.

W

Why seek a banker
for sound counsel
on financial matters?

Ask almost any man you know for advice on some financial problem, and he will give you a ready answer.

But, when you want to be safe, you turn to a reliable banker. Years of training and broad experience have made him a specialist upon whom you rely for sound counsel.

Just as sound counsel is essential in financial matters, so it is important in connection with your attire.

Here, at **Harris & Frank**, are counselors on correct attire for men... specialists who constantly study style trends, color harmony, and appropriate dress for definite occasions.

It is our responsibility to give sound counsel on the choice of a wardrobe to fit your particular needs, and within your budget, be it small or large.

We will gladly suggest a Fall ensemble... for business, sports, semi-formal, or formal wear... whenever you are ready.

LINER BUILDING PROJECT UPSET

Construction of Four Huge Craft Threatened

Operators Have Dispute With Postal Officials

Projected Earnings Result in Mail Subsidy Row

WASHINGTON, Sept. 2. (Exclusive)—Abandonment of plans for the construction of four new American ocean liners, two of them as large as the Leviathan and bigger than the record-breaking Bremen, is threatened in the controversy between the United States Lines, Inc., and the Post Office Department, now pending before the President's inter-departmental committee on mail contracts.

The Post Office will review a show-down this week when P. W. Chapman, Chicago and New York captain of the Post Office, meets with the organization which purchased the United States Lines from the Shipping Board last March for \$16,250,000, will appear before the committee to present his application for mail contracts and defend the method undertaken to finance the proposed fleet expansion.

HUGE LINERS PLANNED

The expansion program, adopted by the United States Lines, Inc., under its contract with the government, projected the building of two super liners of the Leviathan class to cost between \$25,000,000 and \$30,000,000 each and two smaller ships costing about \$10,000,000 each, to replace the Presidents Harding and the President Roosevelt, considered unsatisfactory for North Atlantic traffic.

The keels of the super liners were to be laid not later than February 22, 1930, and plans for the construction of the cabin and public rooms were to be made when bids were to be asked as the initial step in qualifying for a government loan of approximately \$60,000,000, or 75 per cent of the cost of the entire program, under development of an American merchant marine.

Anticipating mail contracts valued at \$15,500,000 over a ten-year period, Chapman, following his purchase of the United States Lines fleet and the organization of the United States Lines, Inc., sold \$6,000,000 of preferred stock in the latter corporation, netting his company about \$1,400,000, or nearly twice as much as the initial payment to the government for the eleven ships taken over.

DISPUTE ARSES

The issue between the corporation and the Post Office Department arose when, after Chapman's prediction in the press concerning mail contracts, it was announced that annual earnings of \$2,500,000 were expected. Postmaster-General Brown ruled that the lines' advertised financial condition did not seem to require or to justify the mail contract subsidy applied for.

Joseph E. Sheedy, executive vice-president of the lines charged Mr. Brown's interpretation of the advertisement was wrong and filed a brief in which he denied that the corporation is overcapitalized or is planning to pay unreasonably large dividends. As a matter of fact Mr. Sheedy asserted in the brief, it passed by the aldermen.

NOISE OF LONDON DRIVES WOMAN TO END HER LIFE

LONDON, Sept. 2. (Exclusive)—Thunderous noises of Twentieth Century living drove Mrs. Hilda Weston, once a vaudeville star, to murder her 18-year-old daughter and then to take her own life. This was revealed today at the Coroner's inquest when the jury was read a letter left by the dead woman: "I have been murdered soul and

never was intended to pay more than \$1 a share per annum on the preference stock, but he pointed out, dividends must be paid if investors are to be induced to aid in the building of an American merchant marine.

FREAK SEA JAUNT ENDS IN SLAYING

Skipper and Stowaway on Tiny Craft That Crossed Atlantic Held for Crime

SEVILLE (Spain) Sept. 2. (AP)—Three men who sailed across the Atlantic Ocean in the thirty-six foot sloop Mary fell out when the hazardous voyage was over and one of them was killed.

Dr. Francisco Caballero Franceschi was the skipper and Angel Caro his entire crew when the sloop left New York, July 31, for Spain. Two days out Roberto Lopez, wealthy Porto Rican resident of New York, disclosed himself a stowaway.

He had hidden under the hatches until hunger and fear of suffocation drove him out.

The sloop reached San Lucas De Barrameda at the mouth of the Guadalquivir River last Friday night and early Saturday morning when the skipper returned to the sloop an argument began with Caro which ended in the doctor shooting the man. He fell overboard and the body has not been recovered.

The skipper and Franceschi were immediately sent to await an inquiry while the authorities dragged the river for the body of the sailor.

Guards Doubled to Curb Riots in Strike Area

Much Wanted Man Arrested

MARION (N. C.) Sept. 2. (AP)—Troop lines were doubled in the Clinchfield and Marion mill sections today as authorities sought to prevent any recurrence of the rioting by striking textile workers and strike sympathizers.

There was no organized activity among the strikers. The formal celebration awaited a mass meeting called for this afternoon.

Alfred Holt, southern organizer for the United Textile Workers, which called the strike and other union leaders, spent the morning in conference. There was no intimidation from the conference room as to whether the union will attempt to hold a scheduled parade in the face of the anti-union ordinance.

Joseph E. Sheedy, executive vice-president of the lines charged Mr. Brown's interpretation of the advertisement was wrong and filed a brief in which he denied that the corporation is overcapitalized or is planning to pay unreasonably large dividends. As a matter of fact Mr. Sheedy asserted in the brief, it passed by the aldermen.

CHINESE REDS HAVE FIELD DAY

Communists Fire Newspaper Offices and Hurl Bombs

Stoning of Street Cars Also Marks Holiday Mood

Gen. Chiang Kai-Shek Misses Death by Plotters

SHANGHAI, Sept. 2. (Exclusive) Chinese newspaper offices here bore the brunt of yesterday's Communists' demonstration. The building of the China Times was set on fire and the offices of the Shunpao were smashed with slight damage to the furnishings. A bomb was hurled through a window of the China Times and up in the next building it ignited a large quantity of paper, which was soon extinguished by the fire brigade.

The police did not succeed in arresting those responsible, although four persons were taken into custody in connection with other disturbances. The celebration demonstration of Communists' Day here was marked by numerous street gatherings and the distribution of the usual Communist handbills, exploding of firecrackers, stoning of street cars and other minor incidents.

PLOT AGAINST CHIANG

The French police also reported an attempt to assassinate Gen. Chiang Kai-Shek, head of the Nationalist government, by members of his own bodyguard. The four men, said to have been members in the plot, were turned over by the police to the Chinese authorities.

Mr. Coffin was inveigled by the

enterprise of the Caproni airplane

factory in Italy. "They were

offering me a million dollars

to help me solve my financial

problems," said Mr. Coffin, and he declared that progress in

the United States compares favorably with that in Europe in this respect.

PEACE RUMOR BASELESS

SHANGHAI, Sept. 2. (AP)—The Nationalist government is not prepared to replace at present the chairman or the general manager of the railroad. In fact, it has not discussed the matter and there is positively no basis for the report that China has agreed or might agree to such a proposal from the Nationalist government.

The Nationalist government could not accept it.

HISTORIAN RECOVERS

PHOENIX, Sept. 2. (AP)—Manuel Mendez, 42 years of age, was fatally injured here today when struck by a car driven by Paul, a Don Juan woman. He died a few hours later in a local hospital.

CAR VICTIM DIES

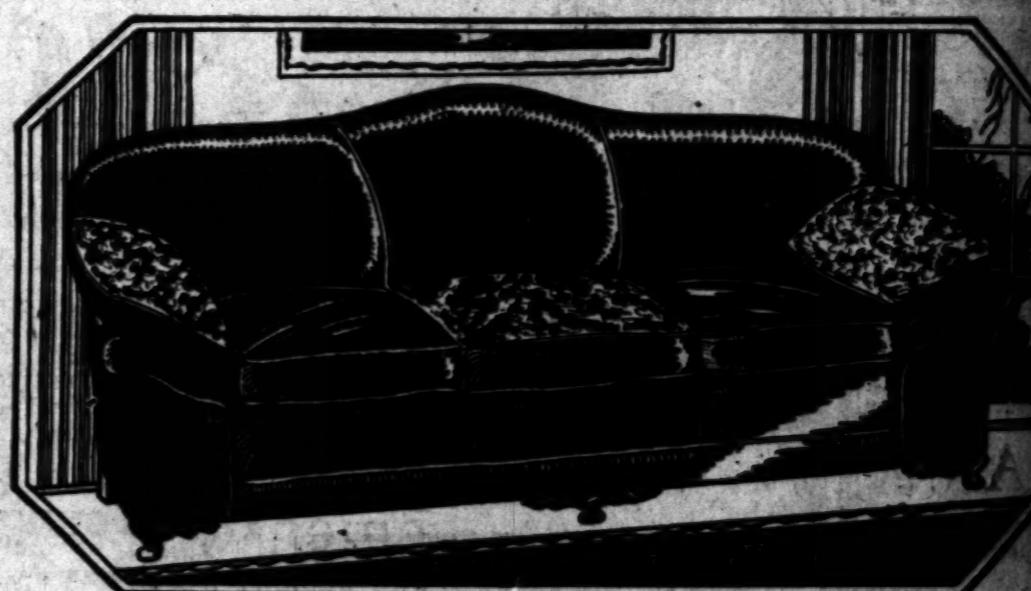

DOUGLAS (Ariz.) Sept. 2. (AP)—George H. Kelly, State historian, has returned from an extended visit to Pacific Coast. He has fully recovered from an illness which confined him to his bed several weeks.

An Institutional Investment Equally Suited to Individuals

A message to conservative investors who have funds for September placement, as well as those who may have strayed from the path of safety

The average bank, insurance company or other institution which has made a critical study of securities, is already familiar with the one form of investment which has consistently provided, over a long period of years, the all-important factors of safety and liberal interest returns, namely:

Insured first liens on conservatively appraised improved Real Estate in settled communities.

The oldest and largest investors in the United States are the great life insurance companies. Their funds are invested largely in carefully selected real estate mortgages or mortgage securities. A report based upon an exhaustive study and analysis by expert accountants of the holdings of these companies, states:

"We have overwhelmingly established by the mass of statistics gathered from all sections of the country that, year by year, mortgage loans on real estate have proved the most stable, conservative and the best income-paying investments of these institutions.

"It is established by the figures furnished by these corporations, tabulated in such detail and with such accuracy that they are not open to question, that, besides their security, this class of investment has been yielding year in and year out about 20% higher income returns than the investments in bonds and other securities."

The average investor, however, is not in a position to investigate individual mortgages or to assume the responsibilities of mortgage buying which includes the collection of interest, the supervision of the pledged properties, and the necessary legal measures in the event of default.

Therefore, in order to relieve the investor of all cares and responsibilities of every kind or character, the Mortgage Guarantee Company, a number of years ago, originated in California its Insured First Mortgage Certificates which have

achieved national recognition as the highest form of fractional mortgage investment.

These Certificates embrace the following factors which are especially important under present market conditions:

- (a) A wide margin of unquestionably sound security.
- (b) A source of income which can be depended upon under any and all conditions for the prompt payment of interest.
- (c) Freedom from speculative influences.

In the face of many false impressions created during the recent era of headlong speculation, it is important to bear in mind that a systematic program of sound investment which provides for the reinvesting and compounding of interest, produces, over a period of years, far greater returns than could be hoped for under any scheme of speculation.

In order successfully to carry out such a program, it is essential to select the right form or forms of investment. The Insured First Mortgage Certificates of this Company are ideally suited to this purpose.

INVESTMENT INSURANCE

Obviously, an insured investment is preferable to an uninsured investment, provided the guarantor is of sufficient strength to make the guarantee effective under any and all conditions.

The Mortgage Guarantee Company therefore insures and guarantees its Certificates as to both principal and interest under the Mortgage Insurance Act of California.

For the same reasons that the buyer of fire or life insurance considers carefully the strength of the Company back of the policy, the investor should consider with equal care the strength of the company

which guarantees mortgage investments.

In this connection it is appropriate to state that the Mortgage Guarantee Company, with resources of more than \$80,000,000, is one of the strongest institutions of its kind in the United States.

LIBERAL YIELD

The interest return from the Insured First Mortgage Certificates of this Company is materially greater than the average return from securities of comparable safety.

These Certificates are available in maturities of two to five years, and in all of these maturities the yield is 6%. Interest is payable either quarterly or semi-annually as the investor may elect.

OTHER ADVANTAGES

Following are the outstanding features of these Certificates, briefly summarized:

SECURITY: A multiplicity of diversified, first liens on improved, well-located real estate having a conservative appraisal value of more than double the amount of Certificates issued.

GUARANTEE: These Certificates are guaranteed as to both principal and interest by the Mortgage Guarantee Company under the Mortgage Insurance Act of California—one of the strongest guarantees in the United States.

CONVENIENT DENOMINATIONS: At the option of the purchaser, these Certificates may be procured in denominations of \$100 or any multiple thereof, thus making it possible for the investor at all times to keep his funds closely employed.

NO COUPONS: These Certificates are issued in registerable form; hence there are no coupons to clip. Interest is paid promptly on due dates by check of the Mortgage Guarantee Company.

NON-FLUCTUATING: As these Certificates are not susceptible to market influences, they are non-fluctuating and care-free at all times.

A copy of the descriptive booklet will be mailed upon request. If you cannot call in person, simply telephone TRinity 0831, or mail the coupon.

"I'm Happiest Woman In Cal."
Says Mrs. Olden

"I not only feel many years younger since taking Sargan but I'm stronger, healthier and more energetic than I've been in a long time. If anyone wants to know time, I'll tell them about my remarkable recovery."

MRS. L. M. OLDEN

what I think of Sargan, have them phone Thornewall 4554 and I'll be glad to tell them about my remarkable recovery.

"My stomach was in such bad condition that nothing agreed with me and many a night I've walked the floor in pain. I became so weak and nervous I couldn't sleep and I'd get up no worse and tired that it took all my will power to get through with my housework. My liver was out of order too and I was bilious all the time. Constipation had me taking laxatives nearly every day and I used to have terrible headaches that almost drove me distracted. When a person 70 years old gets in such a rundown condition, it's hard to do anything that will build them up. I tried lots of medicines and sometimes I got worse instead of better. I kept hearing about Sargan, so finally I asked some people who had taken it what they thought of it. They were all so enthusiastic over the results they got, I made up my mind to try it."

"I believe I'm the happiest woman in California today because Sargan has made me so well and strong. I can hardly realize I've ever been sick. My stomach trouble is all gone and I can eat whatever I want now without any ill effects. My nerves are perfectly calm; my sleep is sound and peaceful and I get up mornings full of vitality that I do my housework with ease. Sargan just seemed to fill me with energy and by the time I'd taken six bottles, I was like a different person in every respect."

"Sargan Pills proved to be the finest laxative I ever took. They regulated my liver and entirely rid me of constipation and biliousness. I haven't had a headache since I started the treatment and I feel better in every way."

"I'm recommending Sargan to all my friends and if anybody else wants to know what this wonderful medicine did for me, just have them phone me and I'll be glad to tell them all about it."

The above statement was made by Mrs. L. M. Olden, 3031 W. 6th St., Los Angeles.

Households are daily calling on the special Sargan representative, the Owl Drug Stores, 6th & Broadway, to learn more about this remarkable new medicine. Sargan may also be obtained at all Owl Drug Stores in Los Angeles and other cities. [Advertisement]

RANGER'S WIFE FIGHTING BACK

Idaho Woman Carried Out on Stretcher

Wounds Inflicted in Despair Partly Healed

Wandered Lost Four Nights in Mountains

CASCADE (Idaho) Sept. 2. (AP)—Mrs. Louise Higgins, 22-year-old wife of a forest ranger, who spent four nights wandering about in wilds at the head of the middle fork of the Salmon River and then shot herself in despair, was taken safely to White Creek Ranger Station tonight and a physician said she will recover.

Mrs. Higgins was carried on a stretcher fifteen miles over a mountain trail to the cabin toward which she had started last Wednesday morning, only to become lost. Searchers found her yesterday morning, so weak from exposure and from wounds that she was unable to eat. She had lost her horse in her vain endeavor to reach shelter in a desolate country where no shelter was available.

LIVES ON BERRIES

Dr. R. C. Ward of Cascade, who rode a horse all night over sixty miles of mountain trails to reach her, declared tonight she will be safe in the cabin for a few hours and then start over the tortuous trail to the outside world and a hospital.

In the few statements she was able to make, she told of how her horse had fallen over a six-foot embankment on the second day of her walk, breaking a leg. She managed to scramble off and escaped the fall, but the horse broke away. The two sandwiches which she carried at the time she left her husband, Merlin Higgins, soon were gone and she lived on berries for the next day.

Higgins was the second man to reach her side after Dick Spokemire, Payette Forest fire guard, had found her when she answered his call. She was then in a thick patch of berry bushes, her clothes torn with thorns, her hands with water from her repeated wading through Trail Creek, which she had followed to near its head.

WOUNDS HEALING

It was not learned when she gave up hope of rescue and shot herself with the small-caliber rifle she carried, but Dr. Ward estimated it was probably Saturday. Her wounds were partly healed. Her hands were not swollen, although near the heart.

Dr. Ward said he hopes to be able to start her in a stretcher over the trail toward Cascade some time tomorrow.

Searchers at White Creek station estimate it will take three days to get her to Pumah Station. From there she will be brought thirty miles by automobile to this town.

Belgian Army to Quit Rhine by December

BRUSSELS (Belgium) Sept. 2. (AP)—The Belgian Department of National Defense today issued orders for the whole Belgian force of occupation to leave Germany by the end of November, in conformity with decisions reached at the Hague reparations conference.

Gen. Fouiller, commander of the Belgian army of occupation, will move up to his headquarters at Nivelles early in December.

Gale Warnings Alarm Luzon

MANILA, Sept. 2. (AP)—(Tuesday) Government employees were concerned today when a weather signal was raised indicating the center of a typhoon was near with the possibility of dangerous gales and heavy winds.

Winds were increased because all communication with the southern part of this island, Luzon, was disrupted. Weather reports obtained last night said the region is flooded by increasing rains.

Ex-Chancellor in Vancouver

VANCOUVER (B. C.) Sept. 2. (AP)—On a tour of Canada, Winston Churchill, former Chancellor of the Exchequer in the late Baldwin government in Great Britain, arrived here tonight accompanied by Major John Churchill, brother, and his son and nephew.

Wednesday night the party will go to Victoria and later leave for the United States by way of the United States.

Body of Missing Man Discovered

MANHATTAN (N. Y.) Sept. 2. (AP)—The body of Max Ait, 50 years of age, Marin county photographer of Ross, was found in the hills near here today, ending a search carried on since he disappeared August 22.

Authorities expressed the belief that the Ait fell victim to a heart attack while on a walk. The body was found by two small boys.

Worried Bride Kills Herself

PORTLAND (Ore.) Sept. 2. (AP)—A wife of seven weeks, Mrs. Myrtle Belle Eichkman, 21 years of age, shot and killed herself at the home of her parents here today. The girl had threatened her mother and police, because her married husband had threatened to leave her. The Eichkman were married July 13.

HIGH HONORS PAID TO WOMAN BY POPE

Idaho Woman Carried Out on Stretcher

Dr. Ward said he hopes to be able to start her in a stretcher over the trail toward Cascade some time tomorrow.

Searchers at White Creek station estimate it will take three days to get her to Pumah Station. From there she will be brought thirty miles by automobile to this town.

Couple Arrested as Parents of Abandoned Babe

REDWOOD CITY (Calif.) Sept. 2. (AP)—Police tonight arrested Alfred and Edna Pachico, Redwood City, as the unmarried parents of the infant girl found abandoned early today in a car.

The couple will be turned over to Oakland authorities tomorrow.

A nurse at the Salvation Army Home is said to have identified the baby as a child born in the institution a month ago to Miss Wintera Pachico, who Miss Wintera Pachico, who was reported to have named as the father of the infant, took the young mother and child from the home Sunday night.

FIRE PERILS OCEAN CITY

OCEAN CITY (Md.) Sept. 2. (AP)—Fire of unknown origin early today swept over the southern part of Ocean City and threatened to destroy the section around the board walk. The flames had reached the Atlantic Hotel.

LOSS SUSTAINED BY HINDENBERG

Sister and Confidant Dies After Operation

President Hastings Home from Bavaria

Family Apprehensive for Statesman's Health

BERLIN, Sept. 2. (Exclusive)—President Paul von Hindenburg has just suffered a severe loss through the death of his sister, who was 78 years of age. Ida Von Hindenburg had been his closest confidant ever since the death of his wife. The aged President and former Field Marshal of the German armies during the World War is rushing back to Berlin from Bavaria, where he has been spending his vacation, to be present at Frau von Hindenburg's funeral. The President's family is very much worried and fear that the shock and the severe emotion will be too great a strain on the statesman's health.

DEMOCRATIC LEADER DIES

KANSAS CITY, Sept. 2. (AP)—Michael J. Pendergast, 63 years of age, former City Clerk and Democratic leader, died here today.

For The Undernourished Child

If you have an undernourished child, here is welcome news. Food specialists have found the chief cause of this condition is a lack of enough Vitamin B, without which no child can be really healthy. And now that the cause is known, the cure is simple.

In this way the younger sister urged on her elder brother. But afterward, when alone in her home, she wept bitter tears of anxiety.

"The country is asking too much of him," she would exclaim. "But we must pray and must do our duty to the last."

She was doing what she felt was her duty when sudden illness brought her under the doctor's knife. She was visiting a home for young girls near Berlin when impoverished families send girls to recuperate after the hard homes which had no Vitamin B food.

When she was suddenly rushed to Berlin for the operation, she had not a cent of money in her pockets. Her friends felt that the empty purse characterized the Von Hindenburg family, and any "charity" was everything she had.

Franz von Hindenburg's heart was too weak to stand the strain of the operation and he died at dawn this morning. The doctors have refused to give details of her fatal illness which had been attributed to her sister's death.

Not only children, but grown-ups like Vegex, a vegetable extract, scientifically prepared, is so delicious that it will tempt the poorest appetite. One teaspoonful per day, added to the food the younger like best, will provide all the Vitamin B he needs. In this way he will not fail to get these precious vitamins, which promote normal growth, stimulate appetite, control constipation, and restore perfect health.

Not only children, but grown-ups like Vegex, it adds a delicious tang to meats, soups, gravies, sauces, etc. Nothing is more stimulating as a broth prepared with Vegex and hot water in one minute.

"Ask your doctor about Vitamin B. and about Vegex, its richest known source. Then buy a 15c trial jar from your leading grocery or druggist. Ask also for the free Vegex cook book. You'll enjoy eating its many tempting recipes.

BENEFITS

ATLANTIC CITY (N. J.) Sept. 2. (AP)—The ghost that has haunted Harry K. Thaw ever since he killed Stanford White over the "Sweet Adeline" in New York has come into more realistic form last Saturday night, when he attended the Broadway-bound musical show "Sweet Adeline" here, it was learned today.

"Sweet Adeline" is the story of a night-club dancer who is loved by two men. One is an artist and the other a wealthy business man. The period of the play is that of the Thaw-White tragedy.

Few in the audience noticed Thaw until ten minutes before the curtain fell on the scene in an Old Madison Square Garden tower was depicted.

Suddenly Thaw scraped back his chair and with a cry of alarm fled from the theater to the street.

Thaw has been entertaining members of the ensemble of the play, among them Gladys Nelson, a showgirl who became so ill after one of his parties that it is not certain that she will be able to participate in the show's New York premiere.

Thousands See
Cycle Racer Die

ATLANTA, Sept. 2. (AP)—While thousands of holiday spectators looked on, Olin Pickens, Atlanta motorcycle racer, was killed at Lakeview Park, Ga., yesterday.

A racer blew out and his machine overturned on the first curve during the first race of the day.

His doctor told him
what he needed was
a Good Meal

Good food promotes good health

A man who thought he was sick and had been treating himself with every kind of medicine he could think of, finally went to a physician. After a thorough examination the physician said: "What you need is to get into the dining-room and start to eat some nourishing foods." The man was practically starving himself to death.

If you think you are sick, go to a physician; but many of the imaginary ills of this world would disappear if people lived and ate normally. The warnings of extremists—"Don't eat this and don't eat

that"—probably do not apply to you at all. Physicians advise all normal people to eat plenty of many different kinds of foods seasoned and flavored for enjoyment.

Sugar is the friend of enjoyable healthful eating because it makes so many other foods delicious to the taste. Sugar is not only a sweetening. It develops entirely new tastes in oatmeal and other cereals. It changes the flavor of tart fresh fruits and berries. A dash of it added to vegetables while they are cooking develops hidden and unsuspected flavors. A dash of sugar improves salad dressings, meat sauces and gravies, fruit punches, milk desserts and milk drinks.

Let sugar add, wherever it can, the blessing of flavor to needed foods. Sugar is the friend of normal, healthful eating. The Sugar Institute.

"Most foods are more delicious and nourishing with Sugar"

CROWD AT FAIR BREAKS RECORD

Eighty Thousand Pass Gates of State Exhibit

Other States Pleased With Showing Made

Governors Urged to Make Personal Visit

SACRAMENTO, Sept. 2 (UPI)—Eighty thousand men, women and children celebrated Labor Day by visiting the California Diamond Jubilee Fair and Western States Exposition which has shattered all previous attendance records for this event and has equalled the top record for the largest of the eastern fairs. Official figures announced by Robert A. Condee, president of the fair board, showed 163,124 persons passed through the turnstiles on Saturday and Sunday, while the record exceeded the 73,864 mark set yesterday. Exact figures will not be available until tomorrow.

Milling and carefree thousands filled every available seat in the grand stand and packed the lawn between the stand and the race track. Additional thousands jammed the exhibits, buildings throughout the grounds or made merry on the fun zone. Representatives of the five western States and the Republic of Mexico, which are exhibiting for the first time at the California fair, were so impressed with the the attendance that they have made tentative arrangements to return in 1932.

OTHER STATES ENTHUSIASTIC
Idaho's representatives approached President Condee with the proposition of erecting an Idaho State building on the grounds, so enthused are they over the opportunity afforded to interest prospective settlers. Idaho does not have a State fair, but the governors of the other western States, Wyoming and Oregon, informed Condee that yesterday's crowd alone exceeded that for an entire week at their own expositions.

The western exhibits joined last night in sending telegrams to the governors of their respective States urging them to be sure to come to Sacramento for Governors' Day at the fair. In response to this united

appeal Gov. Patterson of Idaho, who previously had announced that presenting State business would not permit his attendance, is now expected to be present. The Governor of Arizona also will be on hand, although that State did not enter an

The display of the Republic of Mexico, which was lost in transit, arrived late last night and today proved one of the most popular exhibits in the Western States Building. It looks like a place of Mexico, touched off with Mexican colors. The exhibit of the neighboring Republic consists of tobacco, fax, silk, horticultural, mining and manufacturing products and transparent views of growing crops and harvesting.

HONOR GUESTS

An honor guest at the show today was Miss Marion Thompson, 78, a year-old daughter of the late Gen. D. W. C. Thompson, who founded the California State Fair in San Francisco in 1854. Miss Thompson is a resident of Bennett Valley, Sonoma County.

Tomorrow the fair directors will have their grand Miss America Sulley of Pasadena, a 50-year-old California pioneer who attended the first fair held in Musical Hall in San Francisco. She has not attended a fair for forty years.

It will be a club day. Scopinist Club, Mountain Club, and others will be in the grounds at the fair luncheon at the grounds.

Entries closed today for the country-girl contest that will be decided Wednesday afternoon under the auspices of Lions clubs of California. Twenty-four girls, who entered girls in this event, will compete in the skills of the contestants' ability to milk a cow, ride a horse, take bread and on personality.

Santa Barbara county's exhibit in the agricultural pavilion is a replica of a Spanish garden, with a section of the new \$1,500,000 fish hatchery used as a background.

FEATURE OF EXHIBIT

A unique idea is worked out in the display of the county's produce. The display is placed in a wagon, an antique of the early day. Tropical fruits are features in the display.

The Orange county exhibit, occupying a prominent place in the center of the fair grounds, is a horizontal building, pictures a typical Orange county scene. The background is a painting of a beach scene, in front of which is a platform showing a highway lined with palm trees. Above the platform rise Egyptian pillars, supporting a decorative cornice. Buttermilk is used to tend our fresh produce, on each side of which is a Sphinx. The exhibit is of Egyptian theme, with a color scheme of gold, green, red and blue. The pillars and interior of the booth are illuminated by indirect spotlights and it is decorated with a canopy of palm leaves. This combination makes a setting for an attractive and colorful display of Orange county's citrus and tropical and semitropical fruits. Avocados are featured.

BUSTER WEST WITH CHRISTIE

That clever young comedian, Buster West, has been engaged by First National to play in "The Dandies," which William Watson will direct, and in which the young man will as the title implies, have a chance to display his dancing gifts. He is to appear as a male vaudeville dancer who has appeared at the Orpheum several times.

Opposite West will be a new little actress, Sammy St. Clair, who has

been engaged by Universal to take

the featured comedy lead in John Boles' new starring picture, "La Marcelline," which Paul Draper is to direct with Laura La Plante featured.

The comedian and character actor has portrayed many fine roles on the screen, but none, it is said, has offered him a greater opportunity than he will find in the new Boles picture.

NEWS OF SOUTHERN COUNTIES

RESERVE PILOT DIES IN CRASH

William Radford Killed and William Ranney Injured

Student Had Just Purchased Plane for Own Use

Ship Seen to Go Into Nose Dive; Falls in Grove

REDLANDS, Sept. 2.—William Radford, pilot in the United States Reserve Corps of Riverside, was killed and William Ranney of East Highlands so badly injured that he will probably not live when a Waco plane which Radford had just purchased from W. T. Nunn, crashed in an orange grove about a mile east of Tri-City Airport late this afternoon.

Radford was acting as instructor for Ranney, who had just purchased the plane and was learning to fly. After the ship is kept the plane goes into a spin and nose-dive into the orange grove. Jud Mason, a pilot, who was only a few blocks away and he said there was no evidence that an accident had been caused by the pilot to put the plane out of the spin was at all surprised.

The plane crashed into the ground nose down and up against a small orange tree, breaking it off. Radford was probably killed instantly. Ranney, however, was not seriously broken because it is said that his chances for recovery are slight.

A student freezing to the controls is believed to have been the cause of the crash.

The plane went into a nose dive straight at 3000 feet.

Valley Bonds for Sale Find Ready Buyers

VAN NUYS, Sept. 2.—The Elliot Horne Company, Los Angeles bond house, is the purchaser of the \$40,000 bonds recently voted here to buy the site on Sylvan street on which is to be erected the \$200,000 brick City Hall to serve the San Fernando Valley. The bonds will be sold at 111 bonds. The only other bidder was the Security-First National at 6 per cent. Due to the low amount of the bonds and the high property valuation of the assessment district the bonds will only run for two years.

The Bonds-Turner Park bond issue of \$100,000, also voted recently, has been ordered sold to Whittier at 100, on a bid of 8-1/4 per cent, with a small bonus.

The Angelus Valley Company is the purchaser of the \$100,000 bonds for the widening and paving of Reservoir street between Zelma Avenue in the North Los Angeles district, and Chatsworth on the west.

This bid was 6 per cent with a premium of 5-1/2. The paving of Reservoir is of large importance as it will serve to connect San Fernando Road traffic with the new highway directly into Santa Susana Pass.

Chorus Formed at Upland to Give Concerts

UPLAND, Sept. 2.—Plans are announced by J. Lumbard Graham, local musician, for organizing a community chorus, who met with such response that the chorus will appear shortly in a group of concerts. A "try-out" debut was made by the group at this week's band concert, and received a generous reception.

Graham intends to add to the chorus until it includes the outstanding soloists of Upland and Ontario.

Those who are already members of the chorus are Mrs. Floyd Chapman, Miss Louise Beattie, Mrs. Mark Bailey, Mrs. Ralph Marr, Mrs. Wilbur Dundas, Mrs. Ralph W. Wagon, Mrs. J. E. Wagon, Mrs. Bert Henry, Miss Carol Dart, Frank Hewlett, Mrs. Frank Hewlett, Dick McNeice, Francis Wilson, W. R. Wilson, Ralph Marr, Bert Henry, Frederick Dundas, Robert Manley and W. V. Morris.

FORMER ART EDITOR DIES AT ALHAMBRA

ALHAMBRA, Sept. 2.—Mrs. Ethelyn Jones Guppy, 52 years of age, artist and former art editor of the Modern Priscilla, died Sunday following an operation. She had lived in Alhambra for eight years. She is survived by her husband, George Guppy, an architect.

Miss Guppy was a native of Virginia. At an early age she became interested in art and crafts and her contributory work won her a position on the Modern Priscilla which she held for ten years. During the World War she entered the surgeon-general's department of the United States Army and was occupational therapist at stations at Forts Riley, Kansas, and Weisbaden, where she taught crafts to the wounded soldiers. In March, 1919, she resigned in order to organize a similar department under the American Red Cross at Camp Fremont, Cal. Later this work was taken over by the United States Public Health Service and Mrs. Guppy resumed her position with the Modern Priscilla.

She was an active member of the Alhambra Woman's Club, Alhambra Studios and Professional Women's Club and the First Presbyterian Church of the city.

The service will be held Wednesday afternoon at 2 o'clock at the chapel of Turner, Stevens & Turner.

BLACKMAIL COMPLAINT HOLDS PAIR

Arraignment Set for Today on Asserted Attempt Made to Extort Money

RIVERSIDE, Sept. 2.—Charged with blackmail Fred W. Thayer, for several years Kleagle of the Riverside Ku Klux Klan, M. G. Snow, 24 years of age, and Mrs. Frances Long, 25, are in the County Jail under bail of \$2000 each.

Considerable mystery surrounds the four main highway to Ventura and this fact is being stressed by the organization. However, the opening of the new Santa Monica highway along the coast is expected to be the chosen route of many, and the opening of this highway will mean visitors to the fair is the belief of the directors. The fair grounds are located on the seashore and it is always cool and delightful.

Directors in meeting yesterday announced all plans were complete, the entries larger than ever before and prospects for a record number of visitors. Something like 2000 specimens in the poultry show and 1000 separate specimens in the rabbit show, a couple of hundred dogs in the canine show and full complement in the goat show, live stock, heavy draft horses and mules, etc. The junior fair will have hundreds of exhibits.

A list of the prominent poultry, rabbit and live-stock entries would be practically naming the foremost breeders in these lines and in the Southland. The dog show will be represented by some of the best-known prize winners from states in different sections of the state.

The night horse show will attract several hundred of the bluebloods of Hollywood, Los Angeles, Beverly Hills, San Francisco, Portland, and other cities. The horse show, organized by horses that are known to all, T. J. Donovan, in charge of the horse show, announced that premiums in excess of \$2000 will be awarded nightly at the horse show.

Tom Clarke, the veteran horseman, has lined up a fast-racing meet with two harness and three racing races, a horse race, pony express race, harness racing and chariot race each afternoon of the four days of the fair. Purse running upward of \$15,000 will be contested for by the best horses on the Coast circuit. The State fair association will send most of the horses now in the north direct to Ventura.

Other attractions include six county exhibits, twelve community displays, a great citrus-fruit exhibit for the first time, trained animals, bands, an American Legion drum and bugle corps contest and many other attractions.

RABIES STILL FOUND IN LOMITA DISTRICT

LOMITA, Sept. 2.—Indications that rabies responsible for the death of Jose Rodriguez, 6-year-old Lomita boy, two months ago, is still prevalent here have been found by the Los Angeles County Health Department. The diagnosis of the death of a stray dog found dead here last week.

The test made by the health department in which the dog was found to have died of rabies will be followed by a strict campaign against all uncleaned-for animals.

PASTOR FOR COOL ATTIRE

Sun-Back Bathing Suits for Women and Pajamas for Men Declared Rational by Dr. Brougher

GLENDALE, Sept. 2.—Sun-back bathing suits are all right for girls as are street pajamas for men as long as they benefit their wearers and do not attract too great public attention, according to Rev. James Whitcomb Brougher, Jr., pastor of the First Baptist Church here, who discussed these subjects before his congregation yesterday.

"If anyone could expose more of the human anatomy in a bathing suit than some women do in a ball gown, I just don't want to be around," the minister declared. "I will drive a fast automobile, but the Lord protect me from a fast woman in one of these new-fangled, cut, high-strung party dresses."

"Women should not have become the style since many people have found relief and help from sun baths, and a smooth golden tan is now the fashion. The question of whether or not this tendency on the part of women to expose their bodies is immoral depends on circumstances."

Rev. Brougher declared he sees nothing immoral in a man wearing pajamas in the street as he said, they cover up far more than women's clothes do at the present time.

"Fashion and customs make it rather shocking the number of men who almost think a man is walking in his sleep. I would be in favor of getting rid of stiff collars and neckties in the summer but with fountain pens, purses and bunches of keys a man has to carry in his pocket and have a place to store them to hold them or else start carrying vanity cases. I am in favor of changing the styles but not to the extreme that some advocate."

MAN WILL WIN IN WAR ON INSECTS

Horticultural Commission Head Optimistic; Science to Victor Over Pests

ONTARIO, Sept. 2.—There will never be a "last great war" between man and insect, to be won by the insect army, according to J. P. Coy, San Bernardino county horticultural commissioner, who in a statement he declared science is making such headway against insects and fruit pests that in time that enemy to humanity will be conquered.

"Science, which has conquered bacteria, which in past centuries swept the world in the black plague. The work of science is halting the invasion of pest life today," Coy recently returned from Florida where he inspected the fruit fly-invasion district. "This fight is far from won," he said, "but a year or two now the results of modern science will begin to show on the invasion of the Mediterranean fruit fly. Ultimately this pest will be eradicated from the earth," Coy added.

The seizure and arrests came as a result of a thoughtfully planned and carefully executed mode of procedure, in which the two officers, Pierro and Rodriguez, and their associates, Denison and De Spain, worked together to apprehend the pair.

FINANCIAL

SHOTS FLY IN WILD PURSUIT

Police and Suspects Hurled Through Night

Arrested Bandit Trio Nabbed in Stolen Roadster

Owner of Machine Identifies Man He Says Robbed Him

GLENDALE, Sept. 2.—Within an hour after they had reportedly been arrested by L. A. Plumb, 243 West Miller, at West Broadway and Jackson, and seized him of his roadster, the heavily armed men were arrested and lodged in the City Jail by the last night. The trio was captured following a sensational chase in which officers fired several shots. The arrested men gave the names as Elmer White, 31 years of age, of 5616 Fountain, Hollywood, and McLowery, 26, address unknown. Police say that a 20-caliber arm was used. Every gun he had and the shotgun were covered with dum-dum bullets, was found by McLowery.

"This means going over the road again," officers said. One of the bandit-prisoners declared after the ride to headquarters.

OFFICERS GIVE CHASE

The officers gave chase after the sound of the gun and the roadster. Seeing they were followed, the men in the car crossed off the boulevard and into Commercial.

When the trio in the roadster do not heed the police siren, officers followed first at the floor of the machine. Unable to maintain the pace set by the police car, the three were pulled up at the curb and surrendered.

Police were notified of the robbery by Plumb, who had been held up at the point of a gun by three men and robbed of the car. The theft occurred two blocks from police headquarters.

POLICE LOSE NO TIME

Patrolmen A. E. Condy and M. D. Preston made the arrest a short time after they received a description of the men and the car on the telephone. They had pursued the bandits about a mile and a half when the machine they sought passed them on Fernando Road, headed north.

The three were identified at police station by Plumb and Mr. Condy was the one who directed the gun.

Several other robberies were attributed to the trip, according to Detective-Lieutenant Charles Hale, following a day spent in police headquarters in the coast.

Authorities suspect that the men have been implicated in additional crimes.

Girl Who Kills Rattler Shoots at Hero Stull

WAN NUYS, Sept. 2.—Miss Mary Schwan, Wan Nys High School girl, who has just returned from a house party in the Coates section near Lake Arrowhead, came up to the front door of the cottage where she was staying with her mother. The reptile had eight legs and a button.

"When we saw the snake," she said, "everybody screamed. I was one I yelled the loudest. Then as a sudden I realized that as a high school I had learned that snakes are blind during August and usually looking for water. With all the yelling going on, only the poor snake was frightened and we girls, I grew more nervous with a couple of loud licks. Mr. Stull passed out a few times.

"For most of the stay in Wan Nys I was regarded as a heroine. From what I heard, no one who had status was in their memory for doing more than killing blind snakes.

Four More Art Works for Park

GLENDALE, Sept. 2.—Four more of the Amelio-Cataldi, the art collection at Forest Park, will be added to the art collection at Forest Park. Cataldi is one of the greatest living Italian sculptors. The figures are life-sized. Some represent the angels and the other two are entitled "La Coccinella."

The statues are to be placed in the Memorial Terrace, fifth unit of the Forest Park, under construction. They were purchased by Hubert Eaton, chairman of the board of directors of the park, during a recent tour of the United States. The figures were shipped by President Adams, of the Dillingham Lines, and are reported to have arrived yesterday.

NEW ROAD WILL LEAD TO MOUNTAIN LOOKOUT

LANCASTER, Sept. 2.—A road to provide access to the small mountain lookout in Bear Creek Pine Canyon, by the county forestry department, under supervision of L. S. Perce, assistant county game warden. The lookout is recently established and is the only one which can be detected by anyone in the forest.

CALL MONEY TO HOLD AT HIGH LEVEL

Old Doheny Company Boosted as Candidate for Pace Maker of Speculative Oil Group

BY EARL E. CROWE

Bankers Believe Easier Demand Will Later Follow Seasonal Strain

NEW YORK, Sept. 2. (Exclusive) The reversal of the recent ease in call-money rates, which appeared this week came as no surprise to the financial community since it had been anticipated that the first of September demands would lift the charge for demand loans above the level of 7 per cent which had obtained for the most part since the middle of the month. Bankers expect that the higher rates attained at the close of the week will be continued all during the coming week, to be succeeded later in the month by more moderate charges.

Normally about ten days are required for the first of the month strain on the money market to relax for approximately that period of time is required for checks sent out in payment of dividends, interest and other charges to find their way back to New York City. It may be that the strain will be still more pronounced this month than in the past, since the company being checked and the stock market continue to provide a more moderate supply of credit.

It may be that the strain will be still more pronounced this month than in the past, since the company being checked and the stock market continue to provide a more moderate supply of credit.

The recent activity in Austin-Nichols shares has been the greatest in months and the strength has been accompanied by statements that a substantial minority interest has been acquired by a prominent organization in the oil industry.

The management has an aggressive expansion program under way in an effort to increase sales and results so far obtained have seemed to have lived up to expectations. Austin-Nichols sells many widely advertised grocery articles.

The market action of International Harvester in the past two or three days suggested to some observers an urgent short covering. In addition to this, prominent Chicago interests have been buying the stock and an improved agricultural situation is also expected to help the company considerably. Prospects are bright for further domestic and foreign expansion.

Trade estimates give to Pan-American's Venezuelan production not as sensational as Mexican Petroleum's gush wells in Mexico, but the South American wells are not expensive to drill and are more numerous than most American companies produce from domestic fields. The erection of the Aruba refinery has transformed this production into substantial earnings from the finished product, which are expected to be materially increased by the current expansion in refining operations.

August sales reports of Montgomery Ward and Sears-Roebuck will be released shortly for publication and a substantial increase over the same month last year is anticipated. Mergers running rampant throughout the world and an improved agricultural situation is also expected to help the company considerably. Prospects are bright for further domestic and foreign expansion.

Trade estimates give to Pan-American the possibility of earning about \$1 a share this year, and at least \$1.50 a share in the following year. Over a period of years, the market value of the probable life of the Venezuelan underground reserves and fair prices for gasoline the estimates of earnings run into much larger figures.

With curtailment of American oil fields now a strong probability, no other company is in the same position as Pan-American. Its production possibilities are unlimited unless world-wide regulation of oil fields is put into effect.

DEMAND FOR WALNUT LUMBER SHOWS GAIN

Stimulated by government restrictions on exports during the war, the demand for American walnut from United States and Canadian cabinet manufacturers has shown a rapid increase, according to the American Walnut Manufacturers Association. Before the war 90 per cent of this product was shipped abroad. While foreign shipments today are larger in volume, the percentage and

the market for domestic walnut has been assured by a marked increase in the market for domestic walnut.

Transportation has been an obstacle to market expansion, but the market for domestic walnut has been stimulated by a marked increase in the market for domestic walnut.

BEATRICE CREAMERY OUTLOOK PROMISING

NEW YORK, Sept. 2. (Exclusive) With record-breaking earnings for this year, Beatrice Creamery Company is expected to show its highest annual earnings in the fiscal year closed February 28, 1930, according to well-informed sources. The market for Beatrice Creamery has not kept pace with the rapid rise in earnings. Examination of the average price-earning ratio at which Beatrice is trading indicates that they are relatively cheaper on earnings now than they were last March and just as cheap as at the beginning of 1928, despite the sharp advances scored since the O'Farrell decision was handed down, May 20.

DEVICE SPOTS RAIL DEFECTS

ST. PAUL (Minn.) Sept. 2. (Exclusive)—A device which looks into the interior of steel rails to determine their physical soundness is now in use on the Northern Pacific Railway system.

This automaton, unlike the human, never errs. Hidden defects in rails are exposed by marks which are left on the rail at the precise point where the rail is weak. A pulsing problem in railway engineering thus is declared to be solved. The Sperry rail detector, as the invention is known, performs with uncanny accuracy, according to Northern Pacific operating officials.

The detector is carried in a rail car. When it passes over the rail it locates the slightest crack or fissure in the rail, gives a written record of the defect and squirts a splash of red paint on the exact spot where the defect is located.

Developed by A. E. Sperry, president of the American Society of Civil Engineers, in co-operation with the American Railway Engineering Association, the detector is an electrical device which operates by sending a current through the

rail when it passes over them. A perfect rail has a known resistance. Imperfections increase resistance in proportion to the size and character. A crack or a hollow spot greatly increases the resistance. The amount of resistance is registered on a tape by pen and ink in the car above and a paint gun instantaneously splashes red paint on the rail.

A crack or a hollow spot greatly increases the resistance. The amount of resistance is registered on a tape by pen and ink in the car above and a paint gun instantaneously splashes red paint on the rail.

H. E. Stevens, vice-president of the Northern Pacific, together with other operating and engineering officials, accompanied the car to observe its performance for several days. When the rail detector was applied the train was stopped and an investigation was made. Where the defects could not be seen with the naked eye the rail was removed and broken, and in every case the accuracy of the device was proven, officials said.

Up to now rail defects have been exposed to track walkers, but they have been compelled to rely upon their sight to locate visible defects. The rail detector now "sees" through the steel.

Not reported.

*Comparable figures for 1928 not available.

**Week ending August 28, 1928.

BROKERAGE COMBINE COMPLETED

M. S. Walker and Los Angeles Investment Securities Arm in Consolidation

Details of the merger of the brokerage business of M. S. Walker & Co. and the Los Angeles Investment Securities Company have been completed and the new and enlarged institution under the name of the latter company will be in full operation.

The rate of gold reserves against demand deposits and notes in circulation were 74.6 per cent when the rate was increased.

Current operations of the General Electric Company continue on a record basis and there is every likelihood that earnings for the year will be in excess of \$70,000,000 but better than \$65,000 a share on 7,211,623 no par common shares after allowing for dividend requirements on the special stock. Business thus far in the third quarter is running about 15 per cent above the record level set in the second quarter and although September remains to be accounted for it is likely bookings for the quarter will approximate the record of \$119,861,248 booked in the quarter closed June 30, last.

METAL MARKET TONE IMPROVES

Copper Buying Gain Noted at Unchanged Price

Lead in Better Demand With Quotation Steady

Zinc Slow as Consumers Hold Out for Reduction

BY CHARLES F. WILLIS,
Editor the Mining Journal, Phoenix

Improved buying has featured the metal market, particularly in copper, although there is no change in price nor is any expected with the present volume of the purchases.

Copper remains strong at 17.57 f.o.b.

refinery, lead at 6.75 New York and

zinc at 6.77-6.80 St. Louis.

The lead demand is better with buying well diversified and practically all the leading producers participating.

September and October metal is being purchased, but, in general, the producers are quoted to quote October metal and taking orders on the "average monthly basis."

The market is steady.

As compared with activity in copper and lead, zinc is very slow.

The consumers are still adverse to paying the price which the producers are universally asking, 6.80, and continue to hold out and await the new bargain lots of the metal which are expected to be available at 6.77.

The producers maintain that, with ore at \$4.00 they cannot sell at less than 6.80 and hence must pass up the business rather than cut the prices.

OUTUT GAINS

The world output of zinc in July totaled 135,900 tons, as compared with 134,475 tons in June and 129,500 tons in July of last year. The daily average for world zinc production in July was 4,588 tons, with 4,663 tons daily in June and 4,449 tons in July, 1928. The daily average for the first seven months of 1929 was 4,424 tons.

The United States has produced just about the same amount of zinc in the first six months of 1929 as in the same period in 1928. Among the countries which produced zinc, Canada, Germany, Great Britain, Poland and Australia produced a larger amount in 1929 while Belgium, France and Spain produced less.

Out of the 80,000 tons produced in the first six months of this year, the United States contributed 31,700 tons, Belgium 16,000 tons, France

16,264 tons, Germany 17,384 tons and France 8,150 tons. Each of the other countries produced less than 5,000 tons.

PRICE UNLIKELY

It is evident that the domestic copper consumers have now decided that there is no chance for a drop in the 16-cent price which was established early in April and which has withstood a long period of slow buying. The larger consumers, who are subsidiaries of the copper producers, have held out and required reductions during the past several weeks but the other large consumers who had no producing connections, have been reluctant and slow about coming into the market.

Foreign buying of copper started much more freely, but the buyers are wary of any concentrated buying movement and, in order to avoid it, are probably going to continue buying on a hand-to-mouth basis for some time to come. It was not until the last week in August that September "metal" started to be booked and practically all business done is for immediate delivery.

The trouble with the copper market is that the buyers have laid off of purchasing as long as they have orders on their books for some time ahead on which they have not covered their metal requirements. If the fabricators would buy metal to cover orders as the orders are placed, then a favorable market would result, but if anything should happen to scare a number of the fabricators in buying at the same time, another rush such as was experienced in March might take place.

The crude copper output for the first six months of 1929 totaled 1,102,700 tons, as compared with 1,090,000 tons in the same period in 1928, an increase of 20,700 tons, equivalent to a gain of 22.4 per cent. The largest increase was in the United States, the gain in this country being 122,587 tons over the first half of last year. The output by Chile and Peru increased by 50,841 tons, while Mexico increased by 10,388 tons; Belgian Congo by 7,828 tons, and Canada by 5,000 tons.

Rumors are frequent that the copper prices are to be boosted 1-4 or 1-5 cent immediately upon realization of sustained buying activity, but the dealers believe it can only be done if the market is in a position to demand a stock market purpose and that the producers do not desire the price to advance beyond 18 cents at this time or for some time to come.

They have now reached a point where the objective of a stock market is to be attained by the producers to have found a price that is equitable and, just as they were able to hold the price when buying was slack, it is believed that they will also try to hold it when buying is active.

CAMPBELL OPTIMISTIC

President Gordon R. Campbell of Calumet and Arizona Mining Company said he believed the price of copper would hold at 18 cents for the remainder of the year. Conditions in the copper industry are improving with consumers continuing to buy into the market, he believes.

The fall in the demand in the second quarter was attributed by Mr. Campbell to the fact that consumers bought more in the first quarter than could be consumed for six months. The explanation given is due to the fear of a shortage and said the copper industry should have a very favorable year and a still better one in 1930.

Papers also are said to be on file in the Recorder's office at Fresno for a group of action to be taken by the County Assessor on production to the Anaheim lease of the Associated, described as the Supervisors by W. S. Badger, tax attorney for the oil company who appealed for the return of the ground of "equity" and information of the legal points of the matter also were on the oil company's side.

After discussing the matter in both open and closed sessions, the board has deferred action for two weeks while instructing District Atty. West to fully investigate the facts of the situation.

New Average Leased

A quarter-section four miles northwest from the Millikan Exploration Company's discovery well on the northern slope of the San Geronimo Hills, is said to have been leased recently by the Amerada Petroleum Corporation of New York, according to papers filed in the County Recorder's office at Fresno.

The land is part of Sec. 28, 21-17, and is owned by a group of San Francisco residents. It is the estate of the late Louis D. Nathan. In addition to a one-sixth interest, the lease provides that the company shall pay the sale value of five-twelfths of all oil produced until \$100,000 has been paid, and a penalty of \$10,000 each and \$10,000 per month additional is imposed in the event of the company's failure to start drilling within one year, according to reports.

Papers also are said to be on file in the Recorder's office at Fresno for a group of action to be taken by the County Assessor on production to the Anaheim lease of the Associated, described as the Supervisors by W. S. Badger, tax attorney for the oil company who appealed for the return of the ground of "equity" and information of the legal points of the matter also were on the oil company's side.

After discussing the matter in both open and closed sessions, the board has deferred action for two weeks while instructing District Atty. West to fully investigate the facts of the situation.

Completion Steady

The Associated Oil Company's Dillinge No. 7 in the northwestern part of the San Joaquin field, near Coalinga, was completed a short time ago at 1,000 feet, is yielding 1,000 barrels of oil per day from a 200-foot interval.

The well is being drilled to 2,000 feet.

Completion work is being done on the well.

Completion

Committees of Two Cities to Organize This Week

Then Sessions Will Begin on Definite Program

Members Feel Importance of Proper Solution

BY CHARLES C. COHAN

It is understood that the committees appointed by Mayor Porter and Mayor Haage to represent Los Angeles and Long Beach in preparing an intercity program to meet the situation of the ports, will organize a week. Following this step will come the intercity committee to prepare a definite statement of the position of the two cities in connection with the project.

Unquestionably this is one of the most important civic duties that our public municipal committees have been called on to perform in years, and a committee member.

PROJECT ANALYZED

These two official municipal committees to which have been delegated the work of considering the project have been at the culmination of earnest and purposeful intercity conferences in which the aspects of the unification idea have been given careful analysis. A community sentiment has been aroused and a definite forward step in the interests of both cities has been taken.

At a recent intercity meeting, Mayor Porter, Mayor Haage and Long Beach citizens heartily endorsed the unification of the ports. The appointment of the municipal committees came on the heels of a meeting last week attended by the mayors of the two cities and their respective members and other well-known citizens both cities.

CLEARLY UNDERSTOOD

The governmental requirements of the Federal subsidy of the creation of a national port have been so carefully outlined that no misapprehension concerning them.

Federal spokesman's opposition to any post-federal plan as opposed to actual unification under a joint board of control.

It is well realized in both cities that failure to present an adequate intercity program to the Federal Board of Washington next November will bring the project to a standstill and undo the important work of years.

ATCALLED CHILDREN TRAMPS, WIFE ASSERTS

Mrs. Lowe called his children "American tramps," according to

Mrs. Lowe, whose complaint to the Federal Board of the San

Court here today. Mrs. Lowe complains that her husband has called her wife and innocent names in the presence of their children. Mrs. Lowe further asserts that on occasion she gave one of her sons money for groceries but that the husband took it away from the child, which caused the family to go without for several days.

Fitts Acts Today on Bootleg Graft Charges Against Policemen

PAY-OFF STORY BEING CHECKED

Grand Jury Investigation May be Decided

Bath-house Gatherings of Officers Asserted

Large Sums Given to Pay for Silence Named

Definite action will be taken by Dist.-Atty. Fitts today on charges made by Harry D. McDonald of 208 Greene street, Whittier, that during five years of asserted bootlegging in Los Angeles, he paid out huge sums of money to at least twenty-five police officers for protection and on several occasions was forced to purchase confiscated liquor from them. The investigation held over to the holiday.

Evidence given to the District Attorney by McDonald in his first statement on Friday, he has asserted since that time by officers seeking corroboration and a further statement will be taken from the man today, according to the Dist.-Atty.

FITT'S CHECKS UP

All of McDonald's information, coupled with asserted corroborative evidence obtained by special investigators during an inquiry which extended over the past year, will be ready for a decision as to what action will be taken.

Inasmuch as Dep. Dist.-Atty. Hamm, in charge of grand jury matters, has been assigned to the inquiry with D. H. Clark, an associate, it is believed, action will be taken before the grand jury for further investigation and action.

In such an event, Dist.-Atty. Fitts probably will issue a call for a special session of the grand jury for tomorrow. The next regular session is scheduled for Friday.

McDonald was arrested last week charged with conspiracy to violate the Wright Act. Soon after his arrest, however, he asked for a hearing by the District Attorney and stated that he had been bound by police who extorted protection money from him and wanted to tell all he knows of the asserted organization.

NAMES TWENTY-FIVE

In McDonald's asserted confession, he is reported to have revealed the names of twenty-five police officers

DANCER DEATH TRIAL UPSET

Legal Battle Will Go on Today Against Proposed Testimony of Girl in Delphine Walsh Case

Surprise testimony expected to throw new light on the charge of murder for which Dr. P. S. Traxler and Dr. R. S. Lantzman are on trial before Superior Judge Doran will be given today by Miss Sara Bayless of 1284 West Twenty-eighth street, according to Dep. Dist.-Atty. Kemp and Veitch, in charge of the prosecution.

The two Glendale physicians are accused of the murder of Miss Delphine Walsh, 22-year-old Hollywood dancer, who was strangled and drowned, it is asserted, by the coroner's inquest.

"We have a good case and I am sure the girl has two sides," declared Dr. Gilbert.

The trial is the proper place for that and we propose to present our case there. We do not intend to ask for more time and all of us are ready now. I believe that before this fight is over, it will be decided that the girl has two sides."

The week-end and yesterday were used by defense counsel to study the transcript of the Coroner's jury and the preliminary hearing with Skeen, as well as to question again all defense witnesses.

In the meantime, Prosecutors Costello and Jones also announced themselves as ready for the trial. All of the State's witnesses, about twenty in number, have been questioned and their testimony transcribed. A little more than half of this number testified at the preliminary hearing and no defense witnesses were called.

With only a few witnesses to be called, it is believed that both the prosecution and defense may rest their cases today and arguments to the jury then will be started.

WAY OF CUTTING DAM COST TOLD

(Continued from First Page)

City for Testing Materials, which works with the United States Bureau of Standards, but they omit a clause which would require the city to make future changes in the specifications. Agents of two big cement companies, the California at Colton and the Riverside at Riverside, said they could undercut their rivals if the city would do this.

Bidders who have obtained specifications at a cost of \$15 each, from Engineer Eaton's office, include Southwestern Cement Company at Victorville; Monolith Cement Company at Monolith, the Riverside and California at Riverside, the Blue Diamond Company at Los Angeles, the San Gabriel Cement Company and J. Fred Lansen, a cement broker, said to represent foreign cement companies.

Cost of 3,442,000 barrels requires 100,000 barrels and then it will require about a week to conduct the prosecution's testimony. Another week is expected to be required for the defense and several days will be required for jury argument. The trial will last about three weeks, it is believed.

Prosecutors have agreed to take custody on a murder charge a little more than a month before her husband was arrested and charged with attacking Emma Prince, 15-year-old dancer who had called on him in his downtown office attempting to obtain a booking in his theater. The judge has set a date for the trial by the 3rd Inst. in the date fixed for the trial.

FOUR VERDICTS

Under the law the jury in Mrs. Pantages' case may return any one of four verdicts: She may be found guilty of murder as charged, second-degree murder, or manslaughter or released under a manslaughter or reduced charge of not guilty.

Yesterday caravans were busy outside Justice Hall's courtroom erecting a barricade in the hallways to keep back the huge crowds which are expected to attempt to jam the courtroom. The trial will be open to the public but as the courtroom is small only a small portion of the expected crowds will be able to hear the testimony.

FIRE HYDRANTS GET COUNCIL APPROVAL

On recommendation of the Police and Fire Committee, Council has authorized the fire department to incur expense up to \$20,000 during the operation of the present budget for the purchase and installation of fire hydrants.

ANGELUS CROWD ON HOLIDAY

Parks and playgrounds of Los Angeles were utilized by the largest crowds in the history of the city, it was asserted by officials following a check-up of the throngs who took advantage of the extra holiday yesterday. Thousands of families spent the extra "off-day" in parks near their homes or at nearby beaches.

In the Los Angeles area it was estimated that more than 1,000,000 persons made a holiday of Monday and the manner in which they enjoyed the day was as diversified as possible. An average of 10,000 persons can make it in the course of the day through groups of "just folks" gathered and had lunch.

OUTH SERVED

Playground devices were crowded all day and late into the night with youngsters who had free rain. Swimming pools and wading ponds in the parks were clogged with youngsters who were garbed in everything from take model bathing suits to their everyday pants.

Elfers found the shady side of trees and plants and took off their shoes, partaking of contents of lunch baskets and boxes. As the afternoon sun declined many hundreds of picnickers sought repose in the shadows, while other hundreds played croquet, lawn bowls, tennis, badminton in contests of skill, still in such races as track and field, races, volleyball and innumerable other sports.

At Exposition Park the greatest crowd in the history of the Play-ground Association gathered. Extra police had been detailed to the park, but the holiday spirit made the precaution unnecessary.

SARDINE EFFECT

The two swimming pools in the park were crowded all day and night with hundreds of children who came to the pools to see if they could swim. The pools were closed in the afternoon.

Thousands of automobiles were parked along the streets around Exposition Park, Westlake Park, Elysian Park, Hollenbeck Park and other outdoor recreation centers.

In case of an emergency the park was attended by city police, park matrons and special guard.

You can tell an American broad. When he sees a police to sneak through.

People feel sorry for the poor monkey starved in the zoo and yet life guards seem to enjoy it.

The real problem of Al Heine is to get all Heine can pay and yet leave him enough to buy their products.

For that matter, there are bribery and official corruption in the enforcement of the law against stealing.

Other endurance records don't impress the man whose mother has a dog that gets lost at night.

The young people aren't as quiet as they were in your day? Well, would you care to be as quiet as the old people were then?

Some people think they are rusting to the defense of Los Angeles when they are just being about knowing him.

How superior an American tourist is when he has an assembly for! And the man comes home and competes with his own kind at the Arabs do.

American: Thinking he speaks a great man if he follows us; thinking him a dog if he cranks if he tells us he is.

Note to movie producers: It would be interesting to hear a dog talk but it would be tiresome if he didn't say anything worth while.

How if somebody had stinks paraded from the Chinese, we wouldn't have been news.

A fanatic is a man who thinks you are a narrow-minded dry-wicked wet if you don't care when he talks nonsense.

Modesty: A man's reluctance to undress in the locker room when there's a hole in one of his socks.

How times change! The once naked American, swaying and stamping and yipping in a wild dance, no longer is called a wog.

Birth control makes no progress because you never can tell when one will be a star and earn a million in the movies.

Don't tell Willie, but the ancient Mayas were wonderful mathematicians and the old survivors of the race are un schooled ones.

When a sick husband says his whining prayers and has to earn his wife knows he is in danger.

Correct this sentence: "He still obeys his mother, but I think," said the wife, "but I don't feel resentful."

There are nuts on many varieties of trees, especially fruit trees.

RIDDING DYNAMES
Walt Mason

OLD FASHIONS

How strange the blossoms still appear in fashions of a few years ago! I look through old magazines and wonder what ways and means the damsels dangled themselves in styles that now invoke our measured smiles. Here is the picture of a maid in all the prettily arrayed that in the seventies was known—and one beholds it was a great beauty was a girl of worldwide fame; an actress who had won a name that survives the memory of every old-time scout like me. She was a star in diverse parts, and many springside lads took their hearts in longing for her beauty while. And here we see her as she was, with the head of gauze wrapped round her until it seemed like a crown of diamonds of woven greenish gold, and all those ringlets, black and white. The hat and the umbrella look larger than the gown she wore, a simple thing that swept the floor. Grecian bend, a strange one, our grandmother, a thought pretty nice; it is a queer, seemly, good, with the nimbly up and down, and enough to scare a modern maid. The girl had earrings, a saree, and seeing the bobbed hairs they must have clung to the neck around—they look though they weighed a pound. If such a damsels thus arrived, our shouts would be a fearful din: "Why don't the copper run her in?" We are prone to roast the present style or mock the same with a smile; but could we find a grand old day! The grand old day!

HOLIDAY TRAVEL BY AIR BREAKS LOCAL RECORDS

Picnic days of old when the horse and buggy served as transportation along dusty roads went into the limbo of the past with advent of the automobile and paved highways and now this means of travel is challenged by the liners of the air which have broken all records of record-breaking vacation travel.

Air passenger lines were unable to accommodate the augmented traffic caused by the double holiday, according to reports of officials last night, and yesterday brought about such an unexpected demand for seats on the planes to San Francisco that many passengers turned away.

Holiday services on the airways were more than doubled to Catalina Island, San Diego and Agua Caliente, in order to handle the traffic and provide the hasty and comfortable transportation to all those who desired to escape the crowded conditions on highways.

Many passengers were carried on their first air trip, according to officials, but the traveler accustomed to the sky lanes and the convenience made up the great bulk of the holiday passengers.

In handling the traffic to Catalina Island, the Western Air Express operated their seaplanes on a trip every hour from their terminal at the Santa Monica Pier.

Beginning yesterday at 11:45 a.m., the hourly return schedule was effective. "We have been swamped with demands for transportation to San Francisco," one official said, "and believe there were twice as many desiring air passage as could be accommodated by the different air lines."

Extra sections on all their scheduled trips were resorted to by the Maddux Air Lines in flying passengers to San Francisco, San Diego

and Agua Caliente. The extra service was established last year and the two-day vacationists began the air journey home. "Our regular week-end passengers to San Diego and the Mexico resort were greatly augmented by many people who took their first trip by plane," a Western official said. "It is the greatest holiday business we ever have had."

Similar reports came from the Pickwick Airways, where extra trips were necessary to handle the passengers to San Diego and San Francisco.

Veterans of '98 to Ride Special Train to Denver

The drill teams and drum corps of the United Spanish War veterans from Los Angeles will head a delegation of more than 300 to the national encampment at Denver, Colo., next week.

Traveling on a special train over the Pacific system, the delegates will leave Friday. They will go to Ogden where other specials from the north will meet and go into Denver.

The encampment will convene on the 5th inst. for a four-day session.

Delegates from Southern California will be headed by Judge R. Morgan Galbreath, past department commander, who will be in charge of the Los Angeles delegation.

A. C. Munson, present department commander, left yesterday over the Union Pacific for Denver where he will attend national committee meetings before the regular session.

SCHOOL DAYS began yesterday for eighteen cubs at Gay's Lion Farm, El Monte, following the usual graduation, during which the pupils did not play, but hiked or hiked. Although no scholars brought red apples to dear teacher, Mrs. Charles Gay, she treated them all as teacher's pets and started them on the fall semester courses, which do not include the three R's—reading, writing and arithmetic.

Cub pupils are being taught to nod their heads for "yes," shake their heads for "no" and to count to ten by tapping their paws. This is as high as they need learn counting to be light referees. They also are taught to push the medicine ball and to perform other kindergarten stunts.

After three weeks of preliminary training the cubs are placed in the film arena, where they are taught to act before the motion picture camera. Voice tests will be added to the program to make the cubs more perfect.

Our attempt is made to teach them writing, as they are to grow up into big money film actors, not cub reporters or literary lions.

Why Not Choose Now Your Personal Christmas Cards

All the novel variations of these beautiful sentiments are at your disposal now.

And you know how it is—later on, when the holiday rush really begins, you cannot possibly select from so varied an assortment, or with one-half the leisure, that you can right now!

Parchments, etchings, delightful sketches in color, modernistic designs—all sorts from the most conservative to the most daring color-conceits are available.

There is every reason in the world for choosing at once—if only to have that much of Christmas shopping off your mind!

(Main Floor—Coulter's)

MORE real estate offerings are printed by the LOS ANGELES TIMES than by all other five Los Angeles newspapers combined!

SOCIETY

By JUANA NEAL LEVY
American university and college
jackets have been especially well
represented among the travelers to
Europe this summer.

Three Princeton professors, Dr.
William K. Prentiss, Greek; Dr.
David Magie, Latin, and Dr. George
M. Priest, German, have been stay-
ing at the Hotel Bristol in Berlin,
before leaving for Trier and Swit-
zerland, where they will spend the
remainder of the summer.

Dr. Magie, who is on his summer
vacation, Dr. Prentiss, who is
leaving his academic year, will stay
in America next month, but Dr.
Prentiss expects to return to Europe
during the winter. Dr. Priest is go-
ing to return to Berlin in the fall.
Each of the trio supplemented his
American education by study in
Germany—Priest in the universities
of Berlin, Freiburg, Leipzig,
Hamburg and Jena; Dr. Prentiss at
Hamburg and Halle, and Dr. Magie
at Halle.

Dr. Cyrus Adler, president of the
Jewish Theological Seminary of
America, has come to Europe
to study the Talmud.

Dr. and Mrs. Frank H. Severance
of Buffalo, N. Y., have returned to
Paris from Geneva, where Mrs.
Severance was a delegate to the in-
ternational conference of universi-
ty women. Dr. Severance while
in Europe will visit the Sorbonne
and Palais Academique for research
and publications on the French pe-
riod of American history.

Prof. William O. Holbrook of Har-
vard and Mrs. Holbrook and Prof.
Frank Schlesinger of Yale and Mrs.
Schlesinger are continuing their re-
searches in Paris, having crossed on the
United States liner George
Washington. They expect to re-
main here for one month.

Miss Sarah E. Mathews, head of
the department of history in the
university school of economics, has arrived
in Vienna after an extended trip
through Northern Europe. Miss
Mathews will remain in the Austrian
capital for some time studying Ger-
man.

Dr. Herbert Adams Gibbons of
Princeton has arrived in Paris from
summer home in Poitiers, France,
and will stay at the Hotel Malestherbes
for several days.

Dr. Thomas Healy, dean of the
foreign service school of George-
town University. Was crossed to Eu-
rope aboard the United States liner
Leviathan.

Mr. and Mrs. Lambeth of the University
of Virginia and Mrs. Lambeth are
at the Trianon Palace Hotel in Ver-
sailles.

Mrs. Thomas E. Wells who has
been traveling in Germany, was a
recent visitor to the Hotel Continental
and Grand Hotel Con-
tinental. Mr. and Mrs. Dan Mur-
phy have been staying at the Vier
Jahreszeiten and Henry Deventer of
Hollywood at the Regina Palace.

Dr. John J. Holm and Paul Buck-
ley also traveling in Germany were
recent guests of the Hotel Bristol in
Berlin.

Thomas P. Hamilton of Beverly
Hills has been passing some time at
the Brangome Tower Hotel in
Bournemouth, Eng.

Mr. and Mrs. William Henry have
been in Baden-Baden, Germany, for
the summer season there, staying
at the Stephan Hotel.

Thirty art lovers from America
last week concluded an art tour of
Europe. Among those in the group
was Miss Cora J. Engle of Los An-
geles.

Robert Elliott and his wife, Mrs.
I. B. Elliott, who are at the Grand
Hotel in Vienna, are motoring
through Europe and will sail back

HER ENGAGEMENT ANNOUNCED

Affairs Being Given for Bride-elect

(Lansing Brown studios)
Miss Barbara Evans

FORMAL announcement has been
made by Mr. and Mrs. William
E. Evans of 216 North Gower
street of the bride-elect, Barbara
Evans, daughter of Miss Barbara
Rich, to Chester Barton Rich, son
of Mr. and Mrs. David L. Rich of
Portland, Or., the wedding to be an
event of October.

Last Saturday Mrs. Robert Sa-
lter of 2027 Third avenue enter-
tained with a bridge tea in honor of
the wedding day.

On the line: Bremen from South-
ampton, Eng., the 26th inst.

Mr. and Mrs. Grant Egbert of
Hollywood, who have been traveling in
Europe, are now residing at the
Hotel Montana in Lausanne.

Capt. C. A. Anderson of Beverly
Hills and his daughter, Mrs. Gud-
run A. Hurley, who are passing the
summer and fall season traveling on
the continent, now are in Copen-
hagen, where they are the guests of
Mr. and Mrs. W. Gundersen and Mr.
Kastfeldt at their villa at Kastfeldt.

Miss Evelyn Hamburger and her
sister, Mrs. Jennie Hamburger Marx,
have arrived in Stockholm by mo-
tor. They will go later to the
Hotel Metropol in Copenhagen.

Mr. and Mrs. Dan Murphy have
been staying in Paris at the
Hotel de Crillon, have left for
Baden-Baden, Germany, for a three
week's sojourn before beginning a
tour through Germany and Austria.

Mr. Philip Marton is passing some
time in Paris on his way to Vienna.

Mr. and Mrs. Gardner Grout, who
have been traveling in Switzerland,
were recent arrivals in Geneva,
where they registered at the Resi-
dence Hotel.

Mr. and Mrs. L. A. Brooks, also
traveling in Switzerland, recently
passed several days in Lucerne.

Mrs. Frederick Kimball Stearns
of Beverly Hills and her sister, Mrs.
Minnie Munnings, have been in
Paris, where they have been staying
at the Hotel de Crillon, have left for
Baden-Baden, Germany, for a three
week's sojourn before beginning a
tour through Germany and Austria.

Mr. and Mrs. Earl L. Stendahl,
traveling in Spain, recently passed
several days at Seville at the Hotel
Alfonso XIII.

Mr. and Mrs. Frederick A. Rose
of Beverly Hills, who for the past
few weeks have been motor-
ing through Scotland and Ireland, now
are in London at the Grosvenor
House.

Mr. and Mrs. Edwin Carew and
Mrs. and Mrs. Finis Fox of Holly-
wood have been stopping at the
Hotel National in Lucerne.

Miss and Mrs. John J. Dendahl of
San Diego have been in Eisenach,
Germany.

Woman Driver
Denies Charges

"It wasn't my fault at all, Judge,"
declared Mrs. Pat Malone, 19 years
of age, of 426 East Forty-eighth
street, when she requested jury trial
before Municipal Judge Bogue on a
reckless driving charge. After read-
ing the arrest report made by
Police Officers Rush and Moore,
Judge Bogue agreed with her to the
extent of ordering her release with-
out bail to await trial, which is set
for the 23rd, inst.

The officers reported that Mrs.
Malone's car, while making a right
turn at Forty-eighth and San
Pedro street, was struck by one
driven by Frank Moore, 2763 Crawford
street. The report added that
Moore was driving on the wrong
side of the street at the time, and
his machine skidded forty feet
before hitting the one driven by
Mrs. Malone.

According to information given
to the Sheriff's office, the youth ac-
cidentally shot himself in the right
leg while hunting with shotgun.
Friends who were near young Har-
ry at the time of the accident re-
ported he did not see the shoot-
ing, but hearing his calls for aid,
came to his assistance.

Officers expressed a belief that
the boy died from loss of blood
while being taken to a hospital.

Mrs. Wyman does not reply to letters.

ESDAY
ber 3rd, 1929A "typical" Trust
doesn't existTHERE is no "type" to which a Trust
Arrangement need conform, any
more than there is a "standard form"
for a Will.An attorney draws your Will to meet
your needs and your wishes, complying
with the restrictions which are imposed
by law. In the same way, a Trust De-
claration is prepared...not restricted by
any rigid form or requirement...to fit
the circumstances of the person who
makes the Trust, and of the persons or
beneficiaries which the maker of the Trust
would endow or support.What do you wish to accomplish? That...
within the general provisions of the
law...is the only limitation of a Trust.Discussion with a Security-First National
Trust officer will involve you in no
sort of cost or obligation and will make
clear to you the benefits you can obtain
by the use of the Trust facilities of the
Bank, as Trustee or Executor of your Will.Put your Trust

FIVE MORE DAYS
FOR RADIO SHOWHoliday Crowds Featured
Opening YesterdayFew, If Any, Changes Seen
in Receiving SetsBroadcast's Future Matter
for ConjectureBY DR. RALPH L. POWER
The radio show has opened in
the Ambassador Auditorium in a
bias of glory for its seventh annual
showing.The decorative motifs are, per-
haps, a trifle less gay than in
previous years, but the general scheme
has lost none of its effectiveness.Yesterday's attendance brought a
fair-sized gate receipt, and this de-
spite the fact that 1929 is showing a
marked decrease in attendance at
various radio shows. The Los Angeles
Radio Show equals its record of a year ago in paid admis-
sions it will be doing something
out of the ordinary. If it exceeds
its previous figures it will stamp the
local display as being in a class
by itself.

GENERAL STABILITY

But in any case I see no special
reason for the show directors to
become alarmist. The general all-
out of customers in radio shows
all over the country seems to me to
be but a demonstration that at least
the radio industry is standing
squarely on its own feet.There is nothing startling to
startle people to a realization that
what we have and they possess by
the thousands. Clever publicity
stunts kept them coming for a few
more years.But now, outside of a few ramifi-
cations of scientific principles there
is nothing new to be had.Freak displays of sets in a peanut
shell, antennas rigged on an umbrella
and so forth are passe.

HUGE TRADE DISPLAY

The business of shows has settled
down to a gigantic display from
dozens of stores.Those who are in the least bit interested,
of course, will trek to the Ambassador Auditorium,but the idly curious of other
members of society will spend their time
elsewhere.Naturally there always will be a
market for new owners through the
formation of new families and an
improvement in the economic status
of other family groups.But at this time fully 60 per cent
of sets are reconditioned and not
original sets. This is a fair average,
although some stores report
50 per cent.

NO RADICAL CHANGES

Even the replacements are going
to slow up. Unless visual broad-
cast gets going in rapid stride
there will not be any fundamental
changes in receivers for three and
perhaps five years.I do not hold to the claim of
some who say that the radio re-
ceiver is a style product. My opinion
is that it is not.Some merchants try to get people
to change their set before it is
obsolete from an engineering stand-
point.An automobile is a symbol of its
owner's economic and social status.
Wear and tear give a reasonable
excuse for an early trade-in. There

PROGRAMS THE SAME

The year in broadcast is not at all
so strong in radio. A receiver does
not advertise so widely its owner'sstatus as does the automobile. I
believe that the radio works as
well commercially as it did a year
ago, with perhaps one or two
outstanding changes. The designs
have to do something to show
they have been on the job.Even though such may have a
few points of difference, they
essentially the same.Fashion in cabinets has pro-
gressed, though they have little
to do with the working of the ap-
paratus. The old broad-board de-
sign has progressed to the futuristic
trend of today.

Real stone jewelry set in sterling and marcasite . . . bracelets, earrings and necklaces in exquisite ensembles. Cloisonne compacts and cigarette cases, exclusive imports. On display Wednesday.

(The May Company—MILLINERY—Third Floor)

APPEALS COURT WILL FUNCTION

New Department of Superior Tribunal Established

McLucas, Bishop and Shaw to Take Seats on Bench

Contested Municipal Cases to be Heard Here

A new department of the Superior Court of Los Angeles county will be opened this morning when the wheels of justice begin to grind in the recently organized Appellate Division, which will hear appeals from the Municipal Court. The new department, Divisions 26, 27 and 28, City Hall Building, will be occupied by the new court.

The three assigned to the court are Superior Judge McLucas, Bishop and Shaw, with Judge McLucas presiding.

The present sixteenth floor of the City Hall will be occupied by the new court. Each judge has his own courtroom for regular Superior Court cases. When appeals are heard they will come up in the court of Justice McLucas, the three judges sitting on bench two and seven will be given over to the hearing of appealed cases.

The new court is fashioned after the established Appellate Court. At present appeals from the Municipal Court are heard in the various departments of the Superior Court, which congests the departments. With the adoption of the new plan it is expected that appealed cases from the Municipal Court will be speeded up without hindrance to the regular Superior Court routine.

Marksmanship of Officer Paul T. Stanley early yesterday morning frustrated the attempt of Alex H. Vieimans, 27 years of age, of 4300 Willowbrook avenue, to escape from the scene of a night in a commanded police automobile, according to the officer's report. And, incidentally, Judge Joseph Marchetti, driving by at the time, narrowly escaped having his car crashed into by the police machine.

Stanley reported that he responded to a call to a Spanish cafe at Frolo street and Wilshire Boulevard, where a fight was asserted to be in progress. He left the police car in front and ran inside. He was told the combatants had moved to the rear yard. As he ran back to the yard he heard a car start in front, and, running around the corner, saw Vieimans running the police machine across Wilshire Boulevard, he said.

Stanley fired two shots, one striking the radiator, allowing the water to drain out, and the other shattering the windshield. Vieimans, Stanley said, promptly surrendered. He was booked on suspicion of grand theft.

Judge Marchetti, driving on Wilshire Boulevard at the time, was compelled to swerve his car sharply to avoid being struck by the police machine, Stanley said.

Federal Court Hearings Fixed

Announcement of the time for hearings in the civil and criminal calendars of the three United States District Courts here was made yesterday. The calendar of Judge James will be called on the 21st and 22nd at 10 a.m. Judge James also will call the 10th inst.; Judge McCormick on the 10th inst.; Judge Henning will call his criminal calendar at 10 a.m. and the civil calendar at 2 p.m.

Judge James of Arizona will inquire the term trial of Judge McCormick on the 10th inst.; Judge James' jury will be impaneled on the 11th inst.; and Judge Henning's on the same day.

Oversize Bandit Holds Up Grocer

Six feet six inches in height and weighing at least 250 pounds was the description J. T. Kanikawa gave the police of one of a trio of bandits who held him up in his grocery at 2211 South Avalon Boulevard shortly before noon yesterday.

"You sure he was so large?" asked an investigating officer.

"Oh, too big, many times, think you," said Kanikawa.

The group of the oversize bandit made him lie on the floor of his store while his companions helped themselves to cigarettes and \$20 from the cash register.

The producer is Sol Lesser.

MT. SINAI WORKERS TO MEET TOMORROW

Procedure to be followed in the \$50,000 maintenance fund appeal for Mt. Sinai Home for Chronic Invalids will be discussed tomorrow evening at a meeting to be held at the home of Harry F. Porterhouse, 624 South June street, according to announcement. Volunteer workers who will serve as major of the commercial divisions and representatives of Jewish and other organizations of the city will be in attendance at the meeting. More than 100 guests are expected.

SUSPECTED GRABBER OF PURSE ARRESTED

Accused of grabbing a purse containing \$10 from George Fielding of Santa Monica in a downtown spot last Friday, James Robert Roberts yesterday learned that Roberts is in custody in Gary, Ind., for them. They announced they are preparing to bring Roberts back to stand trial.

"GREATEST ON EARTH" BILLED

Hold Your Horses! Here They Come

Thea Nelson, one of the beauties with Ringling Brothers and Barnum & Bailey, enjoys jest with one of the troupe of clowns.

RIGHT this way to the big tent!"

"Hello you are, folks! I've sold lemonade!"

"The greatest collection of freaks . . ."

These and kindred familiar sounds once more will assail the ears of Los Angeles next week when the Ringling Brothers and Barnum & Bailey Circus pitches its tent city at Washington and Hill streets for a four-day engagement, commencing Thursday, the 13th.

The sensation on the new program of events will be the first appearance here of Hugo Zecchin, the "big-ton" clown, who, according to Zecchin concludes each performance by allowing himself to be shot from a huge cannon high over the heads of the audience.

The advance guard already has arrived to complete arrangements for the stay and announces the show will be greater than ever. More than 800 performers, it is said, are in the troupe this year.

Goldie Hess Has Slight Edge Over Wildcat Carter for Clash Tonight at Olympic

BEACH FIGHTER PICKED TO WIN

Northwestern Negro Makes First Bow Here

Defeat Last Week Cost Him Much Prestige

Local Youngster Will Enter Ring Favorite

BY KAY OWE
Goldie Hess has the edge going into the Olympic ring tonight over Wildcat Carter, Northwestern negro.

The weight is in his favor. On the eve of the match A. J. Hudkins bought the contract of Carter for a record price of \$10,000 from William Neal, adopted father of the boy.

Neal has also served as the boy's manager since the death of the little negro's parents.

Four years ago, Carter has made one of the best records any product of the Northwest country ever accomplished. He has lost but five times in around seventy fights and has not been beaten out or beaten the five who scored over him.

BLACK STREAK
The little black boy scored one run of nineteen straight knockouts and has to his credit a streak of twenty-seven consecutive victories.

Carter has been knocked down, but never out. Doc Snell had the Wildcat on the canvas three times for long counts. The black boy got up to earn a draw.

In the match with Billy Townsend at Seattle last week Carter was fanned four times, but took no count after any of them. The referee stopped the bout with Carter on his feet and fighting back.

Carter charged that Townsend had "given" him gloves and that the referee stopped the bout when he wasn't hurt.

Hess and Carter have been on the firing line for over a month. They were to have met August 8. A bell on the right arm of Hess caused a general mix-up and no fight.

The Olympic is said to have lost around \$2000 after the show had an advance sale of over \$5000 and seemed certain to take a loss of close to \$15,000.

The holiday may hurt the gate tonight, but it is a matter of time before it will be made up.

Dink staggered through with an 85 while one of his track boys, Ward Edmunds, the polo valet and hustler, put him to shame with an 80.

Ward lived up to the creed preached by his coach, but Dink couldn't.

RABBIT PUNCHES PAUL LOWRY

(Continued from Ninth Page)

Dunlap came in with his 89 that Mr. Jones is not interested in winning the medal round.

According to Mr. Keesler the southern gentleman who has won the national title four of the last five years, is intent only in retaining his championship. Mr. Dunlap or any of the other athletes in the field can win the medal for all Mr. Jones cares.

Mr. Keesler points to the fact that Mr. George Voigt of New York won the medal round last year with a thirty-six-hole total of 142, but he did not win the championship. Today Mr. Voigt did not do so well and finished down the line with an 80, which does not leave him much chance to hold on to the medal unless he shoots miraculous golf tomorrow and the leaders fall by the wayside.

COAST BOYS IN LIMELIGHT

IT is particularly interesting and unusually gratifying to note that out of the twenty-nine golfers between the scores of 89 and 78, fourteen of them fall from the Pacific Coast.

This is in a way bears out a prediction by Mr. Keesler that if anybody bettered Mr. Jones it is going to be some gent from the section of the country west of the Rocky Mountains.

Tied for third place with Harrison Johnson, Eugene Humans and Roland McNamee were two crack Portland players, Dr. G. F. Willing, who went to the semifinals of the national last year, and Don Moe, the Oregon sophomore who twice was the western amateur. They all had 82s.

George Von Elm was in the 75 spot with Cyril Tolley, the English champion, and Vincent Delip, another Portlander, was in the same bracket.

Davy Marion of the Southland ran up a 76 which tied Francis Quinet, a former champion, along with E. F. Sherry and Jack Gaines, another Southern California.

SOME FAMILY BATTLES

THE Seaver family had quite a battle today, with father finishing 113 strokes down to Charlie's 80. One of the disappointments was Dr. Paul Hunter, former State champion and Walker Cup hero of several years ago, who had to be satisfied with an 83, which was decided out of tune with the 71 which he hung up last week before Bobby Jones went out and shattered all course records for the Pebble Beach links.

What Seaver, son, failed to accomplish was stoned for, for Norman Macbeth, Sr., who shot the course in 81, while young Macbeth required 94.

Another disappointment was Phillip Findlay, a semifinalist at Brueh last year, who registered an 82.

Johnny De Paolo of the racing family, got into the money with a 78; Max Bohr, designer of the Lakeside links, 82; Scotty Armstrong, 82; R. Thompson and H. Thompson, the Glendale boys, 81 and 82, respectively.

FLEISHACKER HOLDS LINE

THERE was a lot of color on the links today with the marshals waving red jackets and yellow hats. And the boys staved a great chance of having no book talk because as they wended their way over the links with their gaily bedecked golfers, for Little Turkey Fleishacker, the bearded elephant who plays football for Stanford, was the gang leader.

Little Turkey can book a gallery as easily as he books a line, and, therefore, there was absolutely no trouble with the charging thousands today, they were perfectly handled.

One other master is deserving of attention. Dink Templeton, Stanford track coach, who cautions his boys to take things nonchalantly, stepped up to the first tee this morning as stiff as a poker. His first drive was sliced all over the place, but luckily hit a tree and bounded back in the fairway.

Dink staggered through with an 85 while one of his track boys, Ward Edmunds, the polo valet and hustler, put him to shame with an 80.

Ward lived up to the creed preached by his coach, but Dink couldn't.

LOTT AND DOEG LOSE NET MATCH

(Continued from Ninth Page)

and provided the gallery of 2000 with more concentrated tennis drama than this series has produced since the day when Bill Tilden and Jimmie Jeanes, the king and queen of tennis contingents, were fighting for supremacy.

Coming up strongly by winning two of the first three matches decided today, the West had gone a way toward overcoming the one to three deficit encountered on Saturday.

When Lott and Doeg went into action against Van Ryn and Mangin, a western victory squaring the series at four apiece and a fitting finale to the fighting youngsters from New Jersey quickly demonstrated that they cared little for the reputation of the champions.

In the first set carried all before it. Not even Doeg's terrific service could stop their onslaught and they eked through the delivery on the way to the set at 6-1.

Doeg braced and Lott waded bravely in the second set, their improved play enabling them to even the match. But in the final set the New Jerseyites were hot on their trail again. Mangin led the attack in this final session, storming the net with deadly power over head and once again forcing the national champion's single-handed throughout a long, rally at short range, with the Davis Cup doubles star backing him up in great style.

Doeg won his service in the fourth game and Lott took his in the fifth, but outside of these two stands the champions had all the worst of it. In the final game the easterners outside of the Davis Cup doubles star backing him up in great style.

Doeg won his service in the fourth game and Lott took his in the fifth, but outside of these two stands the champions had all the worst of it. In the final game the easterners outside of the Davis Cup doubles star backing him up in great style.

In the first of these, Doeg, the Santa Monica (California) singer, who is No. 8 in the national ranking, battered out a service winner over Ryn.

Ryn, who is No. 6, 6-4, 6-2, earning a score of clean service wins in the two brief sets. In the second the slim but dynamic Berkeley Bell, Austin, Texas, ranked No. 12, disposed of Fritz Mervor, Bel Air, Pa., No. 7, 6-4, 6-4, 6-7.

Bartlett defeated Newell, 6-2, 6-2; Newell defeated Peterson, 6-2, 6-2; and Robert, 6-2, 6-2; and defeated Peetz and Urish, 6-0, 6-0.

Doeg, Bartlett defeated Newell, 6-2, 6-2; and Doeg, 6-2, 6-2.

PROGRESS COPS RACE

GLOUCESTER (Mass.) Sept. 2.—The schooner Progress today won the first of a series of races to decide the championship of the North Atlantic fishing fleet. The Progress took the lead on the final leg after trailing the schooner Arthur D. Story during the first two legs of the race.

The final score of the nine-match series was 6 to 3 in favor of the East as in the last encounter Mercer and J. Gilbert Hall, South Orange, N. J., national clay court champions, defeated Bell and White, runners-up for the national turf court doubles title, 6-3, 6-2.

The East now has won the annual series nine times, the West five

WEST-COAST YOUTHS STAR

Gibson Dunlap and Don Moe Triumph

BY GEORGE VON ELM

National Amateur Champion 1928 (Copyright, 1929, by the North American Newspaper Association.)

PEBBLE BEACH (Cal.) Sept. 2.—Two west-coast youngsters, Gibson Dunlap of Los Angeles and Donald Moe of Portland, shared qualifying honors here today with Bobby Jones, defending his national amateur championship in the thirty-third year running of the major event of golf.

I played behind Jones and, by every long-distance indication, Bob

played a faultless round. I was on the sixteenth green when a crowd of 10,000 persons on the course followed Bob's final thirty-five

foot putt into the cup for a birdie four.

EASY FOR JONES

Checking up when I had finished, I found it the unanimous opinion that Jones had won. That was remarkably easy round. True, he was seldom off the fairways, played every stroke crisply and otherwise conducted himself in a manner truly becoming the greatest amateur champion of all times.

I said yesterday that Bobby would make a few mistakes during the day, and I expect to repeat today that from all adverse indications Jones is going to furnish the most brilliant defense ever witnessed in a national amateur championship.

O. B. Keller, Bobby's Atlanta confidant and adviser, advised me he had never seen Bobby playing like this. "He is a natural," he said of his putting. "I can't understand why Bobby doesn't drop more putts on such excellent greens."

Dunlap came in with his 89 that I had predicted. I found it the unanimous opinion that Jones had won. That was remarkably easy round.
